## 1. NATURE AND CONTINUANCE OF OPERATIONS

Galaxy Digital Holdings LP ("GDH LP" and together with its consolidated subsidiaries, the "Partnership") is a Cayman Islands exempted limited partnership formed on May 11, 2018. The Partnership's principal address is 107 Grand Street, 8<sup>th</sup> Floor, New York, New York, 10013.

GDH LP, an operating partnership, is managed by the board of managers and officers of the general partner, Galaxy Digital Holdings GP LLC ("GDH GP" or the "General Partner"). Galaxy Digital Holdings Ltd. ("GDH Ltd." or "Company") acquired a minority investment in the operating partnership and, effective July 6, 2020, has an active public listing on the Toronto Stock Exchange ("TSX") under the ticker "GLXY". The Company was previously listed on the TSX Venture Exchange ("TSX-V") under the same ticker.

The Company is listed on the TSX and effective August 4, 2021, successfully exited the TSX Sandbox program. TSX Sandbox is an initiative intended to facilitate listing applications that may not satisfy the original listing requirements of the TSX, but due to facts or situations unique to a particular issuer otherwise warrant a listing on the TSX. The Company graduated having completed a twelve-month period without significant compliance issues after graduation.

The Partnership continues to build a diversified financial services and investment management business in the cryptocurrency and blockchain space. The intention is to capitalize on market opportunities made possible by the ongoing evolution of the digital assets space through five primary business lines: trading, principal investments, asset management, investment banking and mining.

The Partnership's digital assets may be subject to significant fluctuations in value and risks unique to the asset class and different from traditional financial assets. Additionally, certain assets are held on cryptocurrency exchanges that are limited in oversight by regulatory authorities (Note 26).

### *General Partner*

GDH GP, is a limited liability company incorporated under the laws of the Cayman Islands on July 26, 2018 and serves as the general partner of GDH LP. The sole LLC member of the General Partner is Galaxy Group Investments LLC ("GGI"), which is controlled by the Chief Executive Officer ("CEO") of the General Partner, and the General Partner has a Board of Managers.

### *Financial Statements*

These condensed consolidated interim financial statements are prepared on a going concern basis which assumes that the Partnership will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The continuing operations of the Partnership are dependent upon generating sufficient cash flow and/or obtaining necessary financing to meet its commitments as they come due and to continue building a diversified financial services and investment management business in the cryptocurrency and blockchain sectors. At June 30, 2021, the Partnership had cash of \$410.2 million (December 31, 2020 - \$135.8 million) and partners' capital of \$1.5 billion (December 31, 2020 - \$798.2 million). Management estimates that the Partnership has sufficient financial resources to maintain its operations and activities for the upcoming year.

## 2. BASIS OF PRESENTATION

### **Statement of Compliance**

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain disclosures included in the December 31, 2020 audited consolidated financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the IASB have been condensed or omitted and these unaudited condensed consolidated interim financial statements should be read in conjunction with GDH LP's audited consolidated financial statements for the year ended December 31, 2020.

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

Except for the new accounting policies disclosed in Note 4, the accounting policies applied in these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Partnership's audited financial statements for the year ended December 31, 2020. The Partnership's interim results are not necessarily indicative of its results for a full year.

These unaudited condensed consolidated interim financial statements were approved by the Board of Managers of GDH GP and authorized for issuance on August 13, 2021.

## Comparative Figures

Certain comparative figures on the statement of financial position and statement of comprehensive income (loss) have been reclassified to conform to the current year's presentation. Specifically, on the statement of financial position, the segregation of prepaid expenses and other assets into due from broker. On the statement of comprehensive income (loss), consulting fees has been reclassified from general and administrative to professional fees. Additionally, the comparative figures on the statement of cash flow have been updated to conform to this presentation.

## Basis of Measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair value and digital assets which are measured at fair value less cost to sell.

In addition, the condensed consolidated interim financial statements have been prepared using the accrual basis of accounting, except for cash flow disclosure.

## Functional and Presentation Currency

The functional currency is the currency of the primary economic environment in which the entity operates. The functional currency determinations were conducted through an analysis of the consideration factors identified in International Accounting Standard ("IAS") 21. The functional currency for First Coin Capital Corp. ("First Coin") is the Canadian dollar ("C\$"), the functional currency for the Japan based entities is the Japanese Yen ("JPY"), the functional currency for the Ireland and United Kingdom based entities is the pound sterling ("GBP"), and the functional currency for the parent entity and all remaining subsidiaries is the United States dollar ("US dollar"). The presentation currency for the Partnership is the US dollar.

Foreign currency transactions are translated into the functional currency of the respective entity or division, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the re-measurement of monetary items denominated in foreign currency at period-end exchange rates are recognized in profit or loss. Non-monetary items that are not re-translated at period end are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value, which are translated using the exchange rates as at the date when fair value was determined. Gains and losses are recorded in profit or loss.

The results and financial position of entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows: (i) assets and liabilities for each statement of financial position presented are translated at the rate of exchange in effect as of the date of the statement of financial position; (ii) income and expense items are translated at the average rates of exchange in effect during the reporting period; and (iii) all resulting exchange differences are recognized in accumulated other comprehensive income.

## Basis of Consolidation

The condensed consolidated interim financial statements include the financial statements of GDH LP and its consolidated subsidiaries, which are controlled by the Partnership. The reporting period, as well as the accounting policies, of the financial statements are consistent across all entities included in the consolidation. All inter-company transactions, balances, income and expenses and unrealized gains and losses are eliminated in full upon consolidation.

### Scope of financial statements

These condensed consolidated interim financial statements represent the financial position of the Partnership and do not include the other assets and liabilities, and income and expenses of the partners. Income taxes are the responsibility of the partners through an allocation of GDH LP's taxable income (loss), and not that of GDH LP. Accordingly, no provision for income taxes has been recorded in these condensed consolidated interim financial statements other than for the entities in the consolidated GDH LP group subject to income taxes. The allocation of taxable income to members may vary substantially from net income reported in these condensed consolidated interim financial statements.

Current income tax assets and liabilities are measured at the amount expected to be paid to tax authorities, net of recoveries, based on the tax rates and laws enacted or substantively enacted at the statement of financial position dates. Current income tax

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

assets and liabilities are included in trade receivables and other current assets and accounts payable and accrued liabilities, respectively, if any.

Deferred tax is recognized on taxable temporary differences between the tax bases and the carrying amounts of assets and liabilities. Deferred tax is not recognized if the temporary difference arises from goodwill or from initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither taxable profit nor accounting profit. Deferred income tax assets are recognized for all deductible temporary differences, carry forwards of unused tax credits and unused tax losses, to the extent that it is probable that deductions, tax credits and tax losses can be utilized. The carrying amount of deferred income tax assets is reviewed at each statement of financial position date and reduced to the extent it is no longer probable that the income tax assets will be recovered. Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the assets are realized or the liabilities settled, using the tax rates and laws enacted or substantively enacted at the statement of financial position dates.

Current and deferred income taxes relating to items recognized directly in other comprehensive income ("OCI") are also recognized directly in OCI.

## **Allocation of income and/or loss**

Income and/or loss arising from the Partnership's ordinary course of operations is to be allocated between the Class A Units and Class B Units pro rata in accordance with the weighted average number of such Units outstanding for the respective periods.

## **Use of estimates and judgments**

The preparation of the condensed consolidated interim financial statements in accordance with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from those estimates.

Many aspects of the digital currency and blockchain industry have not yet been addressed by current IFRS guidance. The Partnership is required to make significant assumptions and judgments as to its accounting policies and the application thereof, which is disclosed in the notes to these condensed consolidated interim financial statements. If specific guidance is enacted by the IASB in the future, the impact may result in changes to the Partnership's profit or loss and financial position as currently presented.

### **Significant judgments in applying accounting policies**

The critical judgments that the Partnership has made in the process of applying the Partnership's accounting policies, aside from those involving estimations, that have the most significant effect on the amounts recognized in the Partnership's condensed consolidated interim financial statements are as follows:

#### ***Digital assets***

There is limited guidance on the recognition and measurement of digital assets. The Partnership has assessed that it acts in a capacity as a commodity broker trader as defined in IAS 2, *Inventories*, in characterizing certain of its holdings as inventory, or more specifically, digital assets. If assets held by commodity broker-traders are principally acquired for the purpose of selling in the near future and generating a profit from fluctuations in price or broker-traders' margin, such assets are accounted for as inventory, and changes in fair value (less cost to sell) are recognized in profit or loss.

#### ***Income from digital asset mining***

The Partnership recognizes income from the provision of transaction verification services within the bitcoin network, commonly referred to as "cryptocurrency mining". The Partnership receives bitcoins from the mining pool operator as consideration for its participation in the pool. Income earned from mining is measured based on the fair value of the bitcoin reward received net of costs directly related to earning the income. The fair value is derived based on the end of day spot price of the coins, on the date of receipt. Currently no specific guidance in IFRS or alternative accounting frameworks exist regarding the accounting of digital currencies obtained via mining. The Partnership has exercised significant judgement in determining the appropriate accounting treatment for the recognition of income from mining.

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

## ***Determination of lease type***

As part of its mining business, the Partnership enters into lease agreements with counterparties as a lessor. On entering into these arrangements, the Partnership assesses whether the lease is a finance lease or an operating lease. As part of this determination, the Partnership makes a number of estimates associated with the lease, the counterparty, and the fair value of the underlying assets. The accounting for an operating lease is significantly different from that of a finance lease. As such, this determination has a significant impact on the way the leased assets are presented within the Partnership's consolidated financial statements.

## ***Valuation techniques***

The fair values of all investments are measured using the cost, market or income approaches (Note 26). The determination of fair value requires significant judgment by the Partnership. The Partnership maintains a valuation policy which requires an appointed Valuation Committee (the "VC"), which is composed of employees of the Partnership, to act in good faith to fair value its investments on a quarterly basis, consistent with fair value accounting guidance in accordance with IFRS 13, *Fair Value Measurement*.

The VC, on behalf of the Partnership, has engaged an independent consultant to provide independent valuations of its investments on a quarterly basis.

## ***Functional currency***

The Partnership's functional currency has been assessed by management with consideration given to the currency and economic factors that mainly influence the Partnership's business and investments, operating costs and related transactions. Specifically, the Partnership considers the currencies in which its investments are most commonly denominated, the currencies in which its expenses are settled by the Partnership and its subsidiaries, as well as the currency in which the Partnership may receive or raise financing. Changes to these factors may have an impact on the judgment applied in the determination of the Partnership's functional currency.

## ***Business combination***

The determination of whether a set of assets acquired and liabilities assumed constitute a business may require the Partnership to make certain judgments, taking into account all facts and circumstances. A business is presumed to be an integrated set of activities and assets capable of being conducted and managed for the purpose of providing a return in the form of dividends, lower costs or economic benefits. The acquisitions of Drawbridge Lending, LLC, BF Holdings I, LLC, and Vision Hill Group Inc. were determined to be acquisitions of businesses (Note 6).

## ***Level of control and influence over investments and funds***

Classification of investments requires judgment on whether the Partnership controls, has joint control or significant influence over the strategic financial and operating decisions relating to the activity of the investee. In assessing the level of control or influence that the Partnership has over an investment, management considers ownership percentages, board representation as well as other relevant provisions in shareholder agreements. As of June 30, 2021 and December 31, 2020, the Partnership had greater than 20% ownership in certain of its underlying investments and board representation in other investments; however, after completing an analysis under IAS 28, the Partnership has concluded that it does not have significant influence in any investments.

Classification of the funds formed by the Partnership requires judgement on the degree of control and influence over these funds. Key to the assessment of control is determining whether the Partnership, as manager of these funds, is acting as principal or agent. Management considers key factors such as power, returns and its ability to use its power to affect the amount of returns, to determine which funds it controls and consolidates and those which it has significant influence and requires equity accounting. As at June 30, 2021 and December 31, 2020, after completing an analysis under IFRS 10, the Partnership has determined it has control of Galaxy Digital Lending SPV I LLC, Galaxy Crypto Index Fund, L.P., Galaxy Institutional Bitcoin Master Fund, L.P., Galaxy Bitcoin Fund L.P., Galaxy Ethereum Fund L.P., Galaxy Ethereum Master Fund, L.P., and Vision Hill Fund I, LP (Note 19).

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

## ***Deferred income taxes***

In applying the Partnership's policy, judgments are made in determining the probability of whether deductions, tax credits and tax losses can be utilized.

## **Key sources of estimation uncertainty**

The areas which require management to make significant estimates and assumptions in determining carrying values include, but are not limited to:

## ***Digital assets and investments - valuation***

Although many of the Partnership's digital assets are traded in active markets and are valued based upon quoted prices (less costs to sell), a portion of such digital assets, as well as the majority of the Partnership's investments, are not actively traded and are valued based upon quoted prices for similar assets or based upon unobservable inputs (Note 26). These valuations require the Partnership to make significant estimates and assumptions.

Digital assets are generally considered to be commodities or similar to commodities and are treated as inventory for financial reporting purposes. Realized gains and losses from the disposition of digital assets and investments, whether by conversion to cash or other digital assets, are recorded as net realized gain (loss) on digital assets, and net realized gain (loss) on investments, respectively. Unrealized gains and losses on digital assets and investments are recorded as net unrealized gain (loss) on digital assets, and net unrealized gain (loss) on investments, respectively.

## ***COVID-19***

In March 2020, the World Health Organization declared COVID-19 (Coronavirus) a global pandemic. For the safety and well-being of its employees, the Company has implemented its business continuity plans, including remote work arrangements. Nonetheless, the COVID-19 pandemic has caused global economic uncertainty and the current and expected impacts on global commerce has been and are anticipated to continue to be far-reaching. To date, globally, there has been significant volatility in markets and foreign exchange rates, restriction on conduct of business in many jurisdictions, including travel restrictions and supply chain disruptions. The Company has evaluated the potential impacts arising from COVID-19 on all aspects of its business and, to date, the Company has not been uniquely impacted by COVID-19. Given the economic uncertainty and the evolving nature of the pandemic, including global variants of COVID-19, it is not possible to predict the duration or magnitude of the adverse results of the outbreak and its effect on the economy, and therefore, the Partnership. However, the Partnership has been successfully able to operate throughout this time with modified work arrangements.

## **3. SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies applied in these unaudited condensed consolidated interim financial statements are consistent with those applied and disclosed in the Partnership's audited financial statements for the year ended December 31, 2020, except for the following:

### ***Revenue recognition***

The Partnership recognizes revenue from cryptocurrency mining. The Partnership receives bitcoins from the mining pool operator as consideration for its participation in the pool. Income earned from mining is measured based on the fair value of the bitcoin reward received net of costs directly related to earning the income. A coin is considered earned on the completion and addition of a block to the blockchain and receipt of the coin, at which time the economic benefit is received and can be reliably measured. The fair value is derived based on the end of day spot price of the coins, on the date of receipt.

The Partnership recognizes revenue on finance and operating leases of its mining equipment. Interest income on finance leases is included in the statement of comprehensive income (loss) for all financial assets measured at amortized cost using the effective interest method. The effective interest rate is the rate that discounts estimated future cash flows through the expected life of the financial instrument back to the net carrying amount of the financial asset. The calculation takes into account all contractual terms of the financial instrument including prepayment options, fee income charged to the customer on the origination of all financial assets, and all purchase premiums or discounts, net of any transaction costs that are directly attributable to the financial instrument, but not future credit losses. Rental income on operating leases is recognized on a straight-line basis over the lease term.

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

## ***Leases - Lessor accounting***

As part of its mining business, the Partnership enters into lease agreements with counterparties as a lessor. At the inception of each lease agreement, the Partnership assesses whether the lease is deemed an operating lease or a finance lease. As part of this determination, the Partnership considers a number of factors including the fair value and the useful life of the underlying assets. A finance lease is a lease that transfers substantially all of the risks and rewards incidental to ownership of the underlying assets at inception of the lease. An operating lease is a lease that does not qualify as a finance lease.

For an operating lease, the Partnership continues to recognize the value of the underlying mining equipment as an asset. They are carried at cost less accumulated depreciation and are depreciated to their estimated residual values using the straight-line method over the lease term. Property under operating leases are reviewed for impairment when events or changes in circumstances indicate that the carrying amount of those assets may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds the higher of the asset's fair value less costs to sell and its value in use.

For a finance lease, the Partnership derecognizes the value of the underlying mining equipment and recognizes a receivable equivalent to the Partnership's net investment in the lease, which is the aggregate minimum payments plus guaranteed residual values less unearned finance income. Any difference between the value of the underlying mining equipment and the net investment in the lease is recognized in profit or loss. Finance leases are recognized as being impaired when the Company is no longer reasonably assured of the timely collection of the full amount of principal and interest. When amounts receivable are considered impaired, their book value is adjusted to their estimated realizable value based on the fair value of any collateral underlying the receivable net of any costs of realization.

## **4. NEW ACCOUNTING POLICIES AND RECENT ACCOUNTING PRONOUNCEMENTS**

The Partnership did not adopt any new accounting standards during the quarter ended June 30, 2021. Refer to Note 3 for new accounting policies adopted during the period.

## **5. KEY TERMS OF LIMITED PARTNERSHIP AGREEMENT**

On July 31, 2018, GDH LP, GDH GP, GDH Ltd., GDH Intermediate LLC (a wholly owned subsidiary of GDH Ltd. established as a tax efficient blocker corporation or similar entity for US tax purposes) entered into a second amended and restated limited partnership agreement (as amended from time to time, the "LPA"). Certain key terms of the LPA include the following:

- *Units* - there are two classes of partnership interests ("Units"): Class A Units, which are held by GDH Ltd., and Class B Units, which are held by GGI and other Class B limited partners.
- *Issuance of Additional Units* - the General Partner will not cause the Partnership to issue any additional Class B Units unless the General Partner determines there is a bona fide business or strategic reason to raise equity capital through the issuance of Class B Units, provided that the aggregate amount of Class B Units that may be issued is less than or equal to 70,000,000 or the GDH Ltd. board of directors approves such issuance.
- *Allocations of Income, Gain, Loss, Deduction and Credit* - each item of income, gain, loss, deduction and credit will generally be allocated pro-rata between Class A Units and Class B Units.
- *Issuances and redemptions of common stock of GDH Ltd.* - If GDH Ltd. issues any of its ordinary shares, the General Partner will, only if either (i) the General Partner has consented to such issuance or (ii) the issuance receives approval by the limited partners holding the majority of Units, cause the Partnership to issue to GDH Ltd., in exchange for GDH Ltd. promptly contributing the net cash proceeds of the issuance to the Partnership, a number of Class A Units equal to the number of ordinary shares issued. Upon the redemption, repurchase, or other acquisition of ordinary shares by GDH Ltd., the Partnership will, at substantially the same time as the redemption, repurchase or acquire, redeem or cancel Class A Units equal to the number of ordinary shares redeemed, repurchased or acquired for an amount equal to the net cash amount paid by the GDH Ltd. for such redemption, repurchase, or other acquisition.
- *Exchanges of Class B Units* - A Class B limited partner may exchange vested Class B Units for ordinary shares of GDH Ltd. On exchange, GDH Ltd. will issue ordinary shares and the General Partner will cancel the Class B Units exchanged and issue Class A Units to GDH Ltd. equal to the number of Class B Units being surrendered, after accounting for any withholding obligation if applicable.
- *Removal of General Partner* - The General Partner may generally be removed by the limited partners holding at least 66 2/3% of the outstanding Units.

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

- *Reimbursable Expenses* - All expenses reasonably incurred by GDH Ltd. in the conduct of its business, including fees related to professional advisors, required or advisable licenses and filings, and meetings and compensation of directors, will be reimbursable by GDH LP, excluding tax.
- *General Partner Board* - As long as GDH Ltd. owns more than 10% of the outstanding Units of GDH LP, GDH Ltd. will have the right to appoint one person to the board of the general partner. In addition, if GDH Ltd. owns more than 40%, but not more than 50%, of the outstanding Units, GDH Ltd. will have the right to appoint another person to the board of the general partner.

### Accounting for the investment by GDH Ltd.

GDH Ltd. is deemed to have significant influence over GDH LP as it owns more than 20% of GDH LP and it has representation on the board of the general partner of the Partnership. As a result, GDH Ltd. has accounted for its investment in the Partnership under the equity method. If and when Class B units of the Partnership are exchanged into ordinary shares of GDH Ltd., GDH Ltd. receives Class A Units of the Partnership. As GDH Ltd. 's interest in GDH LP increases through the ownership of the Class A Units, an ongoing assessment will be performed to determine when GDH Ltd. obtains control of GDH LP. Under IFRS accounting guidance, an investor controls an investee if and only if the investor has all of the following:

- power over the investee;
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect the amount of the investor's returns.

While there are many factors that need to be considered for the evaluation of control, an important factor would be when GDH Ltd. obtains the ability to impact the Partnership's governance and decision making, including its ability to replace the general partner.

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

## 6. BUSINESS COMBINATIONS

### *Drawbridge Lending, LLC*

On November 12, 2020, GDH Ltd. acquired Drawbridge Lending, LLC (“Drawbridge” or “DBL”). Drawbridge is a Delaware limited liability company that was established in March 2018 and operates as a Chicago-based CFTC-regulated Commodity Trading Advisor and Commodity Pool Operator. Drawbridge utilizes derivatives to provide hedged financial products to eligible contract participants through its platform. Its flagship product is a crypto-backed fiat loan with no margin call and an option hedge overlay.

On completion of the DBL acquisition on November 12, 2020:

- All of the issued and outstanding DBL membership interests and all other rights to receive DBL membership interests were cancelled and converted into the right to receive the consideration, or \$4.9 million, calculated as \$5.0 million net of company transaction expenses of \$0.1 million. The consideration consisted of 1,507,473 shares and a cash payment of \$0.3 million. As part of the consideration, the Company issued 1,352,583 shares and held back 154,890 shares to satisfy customary representations and warranties. The hold back shares were issued in May 2021.
- Immediately following the execution of the acquisition, GDH Ltd. contributed its membership interests in DBL to GDH LP which, immediately thereafter, contributed them to Galaxy Digital LP. DBL changed its name to Galaxy DBL, LLC.
- Galaxy Digital LP became the sole member of Galaxy DBL, LLC, and the officers of Drawbridge became the officers of Galaxy DBL, LLC.

As of November 12, 2020, Drawbridge met the definition of a business under IFRS 3, and was identified as the accounting acquiree, whereas GDH Ltd. was identified as the accounting acquirer. The acquisition of Drawbridge was accounted for using the acquisition method. The consideration transferred was measured at fair value, which was calculated as the fair value of cash and equity interests issued by GDH Ltd. in exchange for the net identifiable assets of Drawbridge on November 12, 2020.

	(in thousands)
<b>Fair value of consideration transferred</b>	
Common stock <sup>(1)(2)</sup>	\$ 6,135
Cash	273
	<u>\$ 6,408</u>
<b>Less: Identifiable net assets acquired, at fair value</b>	
Assets:	
Cash	\$ 234
Receivables	141
Digital assets	28
Other current & long-term assets	101
Goodwill	8,392
	<u>8,896</u>
Liabilities:	
Accounts payable	347
Promissory note	2,000
Other liabilities	141
	<u>\$ 6,408</u>

<sup>(1)</sup> The fair value was based on the closing share price of GDH Ltd. of approximately \$4.07 on November 12, 2020 (the date of the acquisition which represents the date the acquirer obtained control of the acquiree).

<sup>(2)</sup> Of the 1,507,473 ordinary shares, 1,352,583 were issued and the remaining 154,890 were held back and issued during the period ended June 30, 2021. The escrowed shares will be released 33% on each of the 6-month, 12-month and 18-month anniversaries for non-employees of DBL and 33% on each of the 12-month, 18-month and 24-month anniversaries for employees of DBL. The value attributed to the shares held back was \$0.6 million and is included in accounts payable and accrued liabilities and was reclassified to partners' capital on issuance.

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

## ***Goodwill***

At the date of acquisition, the Partnership recorded \$8.4 million of goodwill and considered DBL as a separate cash-generating unit. Goodwill represented the future economic benefit arising from other assets acquired that could not be individually identified and separately recognized. Goodwill was attributed to the expected synergies from combining operations with GDH LP, including the ability to drive growth in the Partnership's lending business and the expected future cash flows of the business.

As of December 31, 2020, the Partnership performed an impairment test using a one-step approach and determined the goodwill was not impaired.

## ***Note to Drawbridge***

Prior to the acquisition, a Note Purchase Agreement was entered into on July 9, 2019 by and among Drawbridge and Galaxy Digital Ventures LLC ("GDV"), a Delaware limited liability company and wholly-owned subsidiary of Galaxy Digital LP. GDV agreed to lend to Drawbridge, and Drawbridge agreed to borrow up to an aggregate amount of \$1.5 million (the "Loan"). The Loan was evidenced by one or more secured promissory notes and the notes were secured by all present and after-acquired assets of Drawbridge. The notes bore an interest rate of 8% per annum and interest automatically accrued on a monthly basis and was capitalized to the principal amount of each note and was thereafter deemed to be a part of the principal amount of each such note. The original maturity date of the notes was January 1, 2020 and the July 9, 2019 initial loan amount was \$1.0 million. On December 23, 2019, the initial note was amended and a new senior secured note was issued in the amount of \$2.0 million with a maturity of December 31, 2020. The new note was comprised of (1) \$1.0 million July 2019 note, (2) \$1.0 million December 2019 note, (3) \$33.8 thousand of interest paid in kind since the July 2019 note, and (4) \$3.3 thousand of accrued and unpaid interest since the most recent payment date of the July 2019 note.

## ***Blue Fire Capital***

On November 12, 2020, GDH Ltd. acquired BF Holdings I, LLC ("Blue Fire Capital" or "BFC"). Blue Fire Capital is a Delaware limited liability company that was established in 2007 and operates as a Chicago-based propriety trading firm specializing in providing two-sided liquidity for futures markets and digital assets.

On completion of the BFC acquisition on November 12, 2020:

- All of the issued and outstanding BFC membership interests and all other rights to receive membership interests were cancelled and converted into the right to receive the consideration, calculated as 2,317,888 shares, plus \$7.5 million of net cash and net of company transaction expenses and other adjustments.
- Immediately following the execution of the acquisition, GDH Ltd. contributed its membership interests in BFC to GDH LP which, immediately thereafter, contributed them to Galaxy Digital LP. BFC changed its name to Galaxy Blue Fire Holdings, LLC.
- Galaxy Digital LP became the sole member of Galaxy Blue Fire Holdings, LLC, and the officers of Blue Fire Capital became the officers of Galaxy Blue Fire Holdings, LLC.

As of November 12, 2020, Blue Fire Capital met the definition of a business under IFRS 3, and was identified as the accounting acquiree, whereas GDH Ltd. was identified as the accounting acquirer. The acquisition of Blue Fire Capital was accounted for using the acquisition method. The consideration transferred was measured at fair value, which was calculated as the fair value of cash and equity interests issued by GDH Ltd. in exchange for the net identifiable assets of BFC on November 12, 2020.

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements

Digital asset loans payable	55,767
	<u>\$ 16,922</u>

<sup>(1)</sup> The fair value was based on the closing share price of GDH Ltd. of \$4.07 on November 12, 2020 (the date of the acquisition which represents the date the acquirer obtained control of the acquiree).

<sup>(2)</sup> Includes digital asset derivative positions.

### ***Goodwill and Intangible Asset***

At the date of acquisition, the Partnership recorded \$7.1 million of goodwill and considered BFC as a separate cash-generating unit. Goodwill represented the future economic benefit arising from other assets acquired that could not be individually identified and separately recognized. Goodwill was attributed to the expected synergies from combining operations with GDH LP and the expected future cash flows of the business.

As of December 31, 2020, the Partnership performed an impairment test using a one-step approach and determined the goodwill was not impaired.

Intangible asset of \$2.4 million represents the proprietary software technology that BFC built. The valuation of the intangible asset was based on the estimated cost based on the effort required to replicate the software technology. The intangible asset is depreciated over its estimated useful life of 2 years. As at June 30, 2021, the intangible asset was \$1.6 million (December 31, 2020 - \$2.4 million). The change during the period ended June 30, 2021 relates to amortization of \$0.8 million (2020 - \$nil).

### ***Vision Hill Group Inc.***

On May 19, 2021, GDH Ltd. acquired Vision Hill Group Inc. and Vision Hill Advisors, LLC (together, "Vision Hill" or "VHG"). Vision Hill is a Delaware limited liability company and is an asset manager in the digital assets space with four distinct business units: a family of crypto hedge fund indices, a crypto asset manager intelligence database, called "VisionTrack", a bespoke consulting business for allocators; and a fund manager for fund of funds.

On completion of the Vision Hill acquisition on May 19, 2021:

- All of the issued and outstanding VHG membership interests and all other rights to receive membership interests were cancelled and converted into the right to receive the consideration, calculated as an initial issuance of 1,065,295 shares plus \$5.5 million of net cash and net of company transaction expenses. Up to an additional 134,705 shares may be issued depending on the post-closing adjustments for the transaction.
- Of the 1,065,295 ordinary shares, a portion were granted to VHG employee sellers, payable in three equal payments in the three years following the closing date of the transaction (May 19, 2021), on the condition that they are still employed by the Company. Given the employment requirement, the shares in GDH Ltd. are considered remuneration for services to be provided post-close, and not part of the purchase consideration.

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

As of May 19, 2021, VHG met the definition of a business under IFRS 3, and was identified as the accounting acquiree, whereas GDH Ltd. was identified as the accounting acquirer. The acquisition of VHG was accounted for using the acquisition method. The consideration transferred was measured at fair value, which was calculated as the fair value of cash and equity interests issued by GDH Ltd. in exchange for the net identifiable assets of VHG on May 19, 2021.

<b>Fair value of consideration transferred</b>	<b>(in thousands)</b>
Cash	\$ 5,438
Common stock <sup>(1)</sup>	4,323
<b>Total allocated purchase price</b>	<b><u>\$ 9,761</u></b>
<b>Less: Identifiable net assets acquired, at fair value</b>	
Assets:	
Cash	\$ 289
Receivables and other assets	10
Intangible asset - software technology	332
Goodwill	9,130
	<b><u>\$ 9,761</u></b>

<sup>(1)</sup> The fair value was based on the closing share price of GDH Ltd. of \$23.74 on May 19, 2021 (the date of the acquisition which represents the date the acquirer obtained control of the acquiree).

### ***Goodwill and Intangible Asset***

At the date of acquisition, the Partnership recorded \$9.1 million of goodwill and considered VHG as a separate cash-generating unit. Goodwill represented the future economic benefit arising from other assets acquired that could not be individually identified and separately recognized. Goodwill was attributed to the expected synergies from combining operations with GDH LP and the expected future cash flows of the business.

The intangible asset of \$0.3 million represents the proprietary software technology built by VHG. The valuation of the intangible asset was based on the estimated cost based on the effort required to replicate the software technology. The intangible asset is depreciated over its estimated useful life of 5 years. As at June 30, 2021, the intangible asset was \$0.3 million.

The Partnership will review the accounting for VHG during the measurement period as the Partnership continues to actively seek and collect information relating to facts and circumstances that existed at the acquisition date.

(Expressed in US Dollars - unaudited)

## 7. DIGITAL ASSETS

The Partnership's digital assets are primarily traded in active markets and are purchased with the intent to resell in the near future, generating a profit from the fluctuations in prices or margins. As a result, the Partnership has determined that its holdings of cryptocurrency, both restricted and unrestricted, are considered to be digital assets and, as a result, are accounted for as inventory with changes in fair value less cost to sell recognized in profit or loss. Below are the Partnership's digital asset holdings as of June 30, 2021 and December 31, 2020 (in thousands):

	<b>June 30, 2021</b>	<b>December 31, 2020</b>
Cryptocurrency:		
Unrestricted <sup>(1)</sup>	\$ 1,547,136	\$ 831,122
Restricted	32,529	19,258
	<b>\$ 1,579,665</b>	<b>\$ 850,380</b>

<sup>(1)</sup> The digital asset balance as of June 30, 2021 and December 31, 2020 includes \$481.6 million and \$386.6 million, respectively, of digital assets that are held in funds that are managed by the Partnership. The amount of the funds' digital assets held by the Partnership via its General Partner interest at June 30, 2021 and December 31, 2020 was \$133.1 million and \$98.9 million, respectively.

Cryptocurrency: Digital assets that are typically part of a decentralized system of recording transactions and issuance of new units and that rely on cryptography to secure its transactions, to control the creation of additional units, and to verify the transfer of assets. The Partnership holds both unrestricted and restricted cryptocurrency, as defined below.

Unrestricted – Digital assets held by the Partnership, typically acquired through direct purchase or via pre-network investment whereby the related company or project has completed its token generation event or network launch and distributes such digital assets to the holder.

Restricted – Certain digital assets held by the Partnership can be restricted due to a lock-up schedule. In addition, the Partnership may participate in a proof of stake program where certain digital assets will be committed to the program and restricted for a certain period of time.

During the periods ended June 30, 2021 and 2020, the Partnership engaged in several trading strategies with respect to its digital assets, including cross-exchange arbitrage as well as market neutral trading strategies across a variety of crypto assets and exchanges. Realized gains and losses are recognized in profit or loss.

The Partnership's realized gain or loss on a digital asset is calculated as the proceeds received from the sale of the digital asset less its assigned original cost. The Partnership's unrealized gain or loss on a digital asset consists of both the change in fair value on a digital asset from the beginning of the period and the reversal of any previously recognized unrealized gain or loss on a digital asset sold during the period.

### Payable and receivable for digital asset trades

As of June 30, 2021 and December 31, 2020, there were a number of unsettled trades. The amounts receivable and payable were \$13.3 million (December 31, 2020 - \$13.2 million) and \$54.2 million (December 31, 2020 - \$31.1 million), respectively.

### Digital assets receivables

Digital assets receivables relate to certain digital assets that are yet to be distributed to the Partnership as of the end of the period and which are expected to be distributed over time according to a release schedule (generally via a token sale agreement). As the digital assets are received by the Partnership, they will be reclassified to digital assets. The unrealized gains or losses on the digital assets receivables are recognized in net unrealized gain (loss) on digital assets. As at June 30, 2021, the Partnership has \$72.4 million (December 31, 2020 - \$12.8 million) in short-term digital assets receivables and \$18.9 million (December 31, 2020 - \$6.9 million) in long-term digital assets receivables.

(Expressed in US Dollars - unaudited)

## 8. INVESTMENTS

### Investments

The Partnership's holdings of investments generally are not traded in active markets. Investments are accounted for as financial assets which are initially recognized at fair value and subsequently measured at fair value through unrealized profit or loss. Below are the Partnership's investments as of June 30, 2021 and December 31, 2020 (in thousands):

	<b>June 30, 2021</b>	<b>December 31, 2020</b>
Common stock	\$ 68,457	\$ 29,970
Convertible notes	7,032	4,501
LP/LLC interests	326,283	84,311
Pre-Launch network	3,138	500
Preferred stock	178,848	86,258
Warrants/Trust units/Trust shares	29,247	54,843
	<b>\$ 613,005</b>	<b>\$ 260,383</b>

**Common Stock:** Class of ownership in a corporation that entitles the holders to a claim on the assets and future earnings of the corporation, as well as certain voting and governance rights over the operations of the corporation.

**Convertible Notes:** Class of debt that entitles the holders to convert such debt into equity of the issuer under certain circumstances.

**Limited Partnership / Limited Liability Company Interests:** Class of ownership in a limited partnership or limited liability company that entitles the holders to a claim on the assets and future earnings of the limited partnership or limited liability company, as well as certain voting or governance rights over the operations of the limited partnership or limited liability company.

**Pre-Launch Network:** Contributions made to companies or start-up blockchain projects, typically documented via a SAFE-T, that entitles the holder to receive cryptocurrency at a future date once the related company or project has completed its token generated event or network launch.

**Preferred Stock:** Class of ownership in a corporation that typically entitles the holder to a priority claim on the assets and future earnings of the corporation above that of common stock holders, as well as certain voting and governance rights over the operations of the corporation.

**Warrants/ Trust Units/ Trust Shares:** Warrants represent a security that entitles the holders to purchase the underlying stock of the issuing company at a pre-determined price until the stated expiry date. Trust units are a class of ownership in a unit trust (typically an unincorporated mutual fund) that entitles the holders to a claim on the assets and future earnings of the trust as well as certain voting and governance rights over the operations of the trust. Trust shares represent investments in traditional investment vehicles that enable investors to gain exposure to price movements of underlying assets.

(Expressed in US Dollars - unaudited)

## Continuity schedule of investments

The below table shows components of the change in investments for the six months ended June 30, 2021 and year ended December 31, 2020 (in thousands):

	<b>Investments</b>
<b>Balance as at December 31, 2019</b>	<b>\$ 158,163</b>
Purchases	39,295
Proceeds from investments <sup>(i)</sup>	(34,768)
Distribution	(591)
Transfer to digital assets	(1,699)
Net realized gain on investments	10,796
Net unrealized gain on investments	91,161
Other <sup>(ii)</sup>	(1,974)
<b>Balance as at December 31, 2020</b>	<b>260,383</b>
Purchases	165,533
Proceeds from investments <sup>(i)</sup>	(242,555)
Distribution	(293)
Transfer to digital assets	(450)
Net realized gain on investments	196,048
Net unrealized gain on investments	234,298
Other <sup>(ii)</sup>	41
<b>Balance as at June 30, 2021</b>	<b>\$ 613,005</b>

<sup>(i)</sup> Proceeds from investments for the period ended June 30, 2021, reflect the proceeds from the sale of trust shares, preferred stock and common stock, convertible note settlement, digital assets received, and the cash and stock consideration received in relation to an investment being acquired. Proceeds from investments for the year ended December 31, 2020 reflect the proceeds from the sale of preferred stock and common stock of companies.

<sup>(ii)</sup> Other for the period ended June 30, 2021 includes capitalized interest from the issuance of convertible notes. Other for the year ended December 31, 2020 includes capitalized interest from the issuance of convertible notes and accretion of a discount from the issuance of convertible notes offset by the dissolution of a promissory note upon the Partnership's acquisition of Drawbridge (Note 6).

The Partnership's realized gain or loss on an investment is calculated as the proceeds received from the sale of the investment less its original cost. The Partnership's unrealized gain or loss on an investment consists of both the change in fair value on an investment from the beginning of the period and the reversal of any previously recognized unrealized gain or loss on an investment sold during the period.

### **Investments sold short**

Investments sold short are accounted for as financial liabilities, which are initially recognized at fair value and subsequently measured at fair value through unrealized profit or loss. The fair value and unrealized loss of the Partnership's investments sold short as of June 30, 2021 was \$10.7 million (December 31, 2020 - \$4.4 million) and \$1.3 million (June 30, 2020 - \$0.6 million), respectively.

The Partnership's realized gain or loss on an investment sold short is calculated as the proceeds from the sale of the investment sold short less the cost of the repurchase. The Partnership's unrealized gain or loss on an investment sold short consists of both the change in fair value on an investment sold short from the beginning of the period and the reversal of any previously recognized unrealized gain or loss on an investment sold short during the period. The realized loss of the Partnership's investments sold short as of June 30, 2021 was \$3.5 million (December 31, 2020 - \$nil).

(Expressed in US Dollars - unaudited)

### 9. DERIVATIVES

For the three and six months ended June 30, 2021, the Partnership recognized a net derivative gain of \$117.0 million (June 30, 2020 - \$2.4 million) and \$135.9 million (June 30, 2020 - \$6.9 million), respectively. The net gains for the three and six months ending June 30, 2021 were due to positioning, economic hedging and as part of a trading strategy.

The breakdown of the Partnership's derivatives portfolio, including their respective maturity, as of June 30, 2021 and December 31, 2020 are as follows (in thousands):

Type of Derivative	June 30, 2021		December 31, 2020	
	Notional Amount	Fair Value	Notional Amount	Fair Value

Exchange traded digital currency options <sup>1</sup>	23,602	(3,219)	470	131
	<b>\$ 1,198,455</b>	<b>\$ 34,329</b>	<b>\$ 323,589</b>	<b>\$ 15,922</b>

<sup>1</sup> Exchange traded digital currency options and exchange traded futures are traded on a traditional financial exchange.

Type of Derivative at Fair Value	June 30, 2021		
	Term to Maturity		
	Within 1 year	1 through 5 years	Over 5 years
BTC futures	\$ (238)	\$ —	\$ —
BTC swaps	(406)	—	—
Digital currency options	39,860	—	—
Digital currency futures	20	—	—
Digital currency swaps	(214)	—	—
Foreign currency swaps	171	—	—
Exchange traded futures	(1,645)	—	—
Exchange traded digital currency options	(3,219)	—	—
	<b>\$ 34,329</b>	<b>\$ —</b>	<b>\$ —</b>

As of June 30, 2021, in connection with the open digital currency options, counterparties had posted or pledged cash collateral of \$nil (December 31, 2020 - \$0.3 million) and cryptocurrency collateral of \$108.5 million (December 31, 2020 - \$22.3 million). The cash collateral has been reflected in the Partnership's cash balance with a corresponding entry to collateral payable on the statement of financial position. The pledged cryptocurrency collateral is not reflected on the Partnership's statement of financial position as the Partnership is not entitled to utilize the collateral posted and is held in escrow.

As at June 30, 2021, in connection with digital currency options, the Partnership had posted cash collateral of \$0.4 million (December 31, 2020 - \$0.1 million) which is reflected as assets posted as collateral on the statement of financial position.

The digital currency options are deemed to be Level 3 assets as one or more of the inputs are unobservable and significant to their fair value measurement. The fair value of the digital currency options is generally primarily driven by the volatility of the

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

underlying digital currency. An increase in volatility generally increases the value of the option, while a decrease will generally decrease its value. The volatility of the underlying digital currency options held at June 30, 2021 ranged from 90% to 217%.

## 10. RECEIVABLES

(in thousands)	June 30, 2021	December 31, 2020
Interest receivable	\$ 2,335	\$ 1,050
Receivable for investment sold	14,958	—
Other <sup>(1)</sup>	4,686	1,660
	<b>\$ 21,979</b>	<b>\$ 2,710</b>

<sup>(1)</sup> Includes \$1.6 million (December 31, 2020 - \$0.2 million) in management fee receivable and includes \$1.0 million (December 31, 2020 - \$0.3 million) due to the Partnership from managed funds. The amounts due to the Partnership from managed funds represents expenses incurred by the funds that were paid on their behalf by the Partnership

## 11. DIGITAL ASSET LOANS RECEIVABLE AND PAYABLE

In the ordinary course of business, the Partnership enters into facilities to borrow cryptocurrencies in order to lend to counterparties, thus earning a return through the spread between borrowing and lending rates. From time to time, the Partnership has also borrowed as part of a trading strategy. In addition, the Partnership may, on occasion, lend cryptocurrencies using its holdings.

### Digital asset loans receivable

During the period ended June 30, 2021, the Partnership loaned select cryptocurrencies to borrowers at annual rates ranging from 2% to 22%. There is no set term for the loans and the borrower can prepay without penalty. In addition, the Partnership can generally demand the repayment of the loans at any time by providing between three to twenty business days notice. The borrower is generally required to post collateral between 0% to 150% of the loan value in either US dollars or select cryptocurrencies.

As of June 30, 2021, the Partnership had a digital asset loans receivable balance of \$163.3 million (December 31, 2020 - \$96.7 million).

As of June 30, 2021, borrowers had posted cash collateral of \$18.8 million (December 31, 2020 - \$0.3 million), cryptocurrency collateral of \$62.9 million (December 31, 2020 - \$25.3 million), pledged cryptocurrency collateral of \$nil (December 31, 2020 - \$1.5 million) and trust share collateral of \$65.5 million (December 31, 2020 - \$70.8 million). Under the terms of the master loan agreements, the Partnership is entitled to use the cash and cryptocurrency collateral to conduct its digital currency lending and borrowing business and therefore has reflected the amount in the Partnership's cash and digital asset balances with a corresponding entry to collateral payable on the statement of financial position. In contrast, the pledged cryptocurrency and trust share collateral posted by the borrowers has no impact on the Partnership's statement of financial position as the Partnership is not entitled to utilize the pledged amounts unless there is an event of default. Therefore, the value of the cryptocurrency received as collateral has been netted with the obligation to return the cryptocurrency.

### Digital asset loans payable

As of June 30, 2021 and December 31, 2020 digital asset loans payable consisted of the following (in thousands):

	June 30, 2021	December 31, 2020
Master loan agreements	\$ 672,723	\$ 207,899
Credit facility from exchange	—	18,500
	<b>\$ 672,723</b>	<b>\$ 226,399</b>

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

## Master loan agreements

During the period ended June 30, 2021, the Partnership entered into master loan agreements with lenders and counterparties to borrow select cryptocurrencies at annual rates of interest ranging from 2% to 20%. For most of the loans, there is no set term of repayment and the Partnership can prepay the loans without penalty. In addition, the lenders can generally demand the repayment of the loans at any time by providing between five to twenty business days notice. The Partnership is generally required to post collateral between 0% to 100% of the loan value in either US dollars or in select cryptocurrencies.

(in thousands)	June 30, 2021	December 31, 2020
Digital assets borrowed	\$ 674,135	\$ 213,177
Digital assets sold short <sup>(i)</sup>	(1,412)	(5,278)
Master loan agreements	<u>\$ 672,723</u>	<u>\$ 207,899</u>

<sup>(i)</sup> See Note 16 for disclosure on digital assets sold short. The digital assets sold short balance above reflects the net traded balance of the cryptocurrency borrow.

As of June 30, 2021 the Partnership posted cryptocurrency collateral of \$25.3 million (December 31, 2020 - \$15.6 million) for digital asset loans payable which is reflected as assets posted as collateral on the statement of financial position.

During the three and six months periods ended June 30, 2021, the Partnership paid interest expense of \$14.3 million and \$26.1 million (2020 - \$1.0 million and \$1.8 million) and received interest income of \$8.2 million and \$15.1 million (2020 - \$0.6 million and \$1.1 million) in connection with the aforementioned lending and borrowing activity.

## Credit facility from exchange

The Partnership has entered into credit facilities with certain exchanges and uses credit facilities provided within exchange accounts to conduct trading activity. In accordance with the policy of the exchange, four of these arrangements were not pursuant to a formal credit facility agreement and are managed automatically on the trading platform. Two arrangements were pursuant to a formal agreement requiring the Partnership to post collateral of 10-25% in conjunction with the amounts drawn. These credit facilities are restricted from withdrawals from exchange accounts and bear interest rates ranging from 0% to 3.65% annually. The total amount extended under these credit facilities at June 30, 2021 is \$2.2 million (December 31, 2020 - \$2.2 million) in cash and \$61.5 million (December 31, 2020 - \$99.6 million) in digital assets. As at June 30, 2021, \$nil (December 31, 2020 - \$18.5 million) has been included in digital asset loans payable as the balance must be repaid in a specific currency that the Partnership does not have on hand. The remaining cash and digital asset credit facility balances of \$2.2 million (December 31, 2020 - \$2.2 million) and \$61.5 million (December 31, 2020 - \$81.1 million), respectively, have no impact on the Partnership's statement of financial position as the value of the cash and cryptocurrency extended has been netted with the obligation to return.

## **12. PREPAID EXPENSES AND OTHER ASSETS**

(in thousands)	June 30, 2021	December 31, 2020

For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

## 13. LOANS RECEIVABLE AND PAYABLE

### Fiat currency loans

In the ordinary course of business the Partnership may borrow and lend fiat currency, such as US dollars, to counterparties to facilitate other digital asset trading and lending activity.

During the period ended June 30, 2021, the Partnership loaned fiat currencies to borrowers at annual rates ranging from 8% to 21%. There is no set term for the loans and the borrower can prepay without penalty. The borrower is generally required to post collateral in escrow between 0% to 150% of the loan value in select cryptocurrencies.

As of June 30, 2021, the Partnership had loans receivable balance of \$110.5 million (December 31, 2020 - \$8.5 million) of which the respective borrowers had posted cryptocurrency collateral of \$116.1 million (December 31, 2020 - \$7.3 million) and pledged \$51.9 million (December 31, 2020 - \$11.7 million) of cryptocurrency collateral. The Partnership is entitled to utilize the cryptocurrency posted as collateral by borrowers and therefore, has reflected this amount within its digital assets with corresponding entry to collateral payable on the statement of financial position. In contrast, the cryptocurrency pledged as collateral by the borrowers has no impact on the Partnership's statement of financial position as the Partnership is not entitled to utilize the pledged cryptocurrency unless there is an event of default. The value of the cryptocurrency received as collateral has been netted with the obligation to return the cryptocurrency.

During the period ended June 30, 2021 the Partnership entered into revolving credit agreements with counterparties to extend fiat currency or digital assets with a maximum value of \$24.0 million. These arrangements have a stated monthly interest rate regardless of credit extended. As of June 30, 2021 no fiat currency or digital assets had been borrowed by these counterparties.

During the period ended June 30, 2021, the Partnership borrowed fiat currencies from lenders at annual rates ranging from 5% to 13.5%. For most of the loans, there is no set term of repayment and the Partnership can prepay without penalty. As of June 30, 2021, the Partnership had loans payable of \$17.0 million (December 31, 2020 - \$nil) of which the Partnership posted cryptocurrency collateral of \$15.7 million (December 31, 2020 - \$nil). During the period ended June 30, 2021, the Partnership paid interest expense of \$2.1 million (June 30, 2020 - \$nil) in connection with the aforementioned borrowing activity.

## 14. PROPERTY AND EQUIPMENT AND RIGHT OF USE ASSET

(in thousands)	Furniture & Fixtures	Office Equipment	Computer Equipment	Mining Equipment <sup>(iii)</sup>	Leaseholds Improvements <sup>(i)</sup>	Total Property and Equipment	Software Technology <sup>(iv)</sup>	Right of Use Asset
<b>Balance as of December 31, 2019</b>	\$ 525	\$ 11	\$ 445	\$ —	\$ 3,077	\$ 4,058	\$ —	\$ 5,183

Other	6,510	17,225
	<u>\$ 144,039</u>	<u>\$ 34,154</u>

<sup>(1)</sup>Contributions in advance represent funds paid by investors for subscriptions that haven't been issued as of June 30, 2021.

### Payables to Customers

During the period ended June 30, 2021, the Partnership commenced its prime brokerage business. As of June 30, 2021, there was \$150.8 million due to customers for the prime brokerage. The corresponding fiat currency and loan agreements are not restricted on the statement of financial position as the Partnership has the full right to rehypothecate the funds at any time.

## 16. DIGITAL ASSETS SOLD SHORT

In the ordinary course of business, the Partnership enters into facilities or master loan agreements to borrow cryptocurrencies to facilitate trading. For certain of those cryptocurrencies, the Partnership has taken a strategy to short the borrowed cryptocurrency. In those instances, these borrowings have been reflected as digital assets sold short on the statement of financial position. In addition, from time to time, the Partnership sells cryptocurrencies that it does not hold in its inventory or that it has not borrowed. The Partnership will then, at a later date, buy the respective cryptocurrencies to close out the transaction. Such sales have also been reflected as digital assets sold short.

Realized gains and losses are recognized only on a purchase of the identical asset made in order to close out the future position at the settlement date. All other short trading activity is recognized in unrealized gains and losses.

### **Master loan agreements**

During the periods ended June 30, 2021 and 2020, the Partnership entered into master loan agreements with lenders to borrow select cryptocurrencies.

As of June 30, 2021, the digital assets sold short balance under the master loan agreements (Note 11) was \$1.4 million (December 31, 2020 - \$5.3 million).

## 17. LEASE LIABILITY

Lease liability (in thousands)	June 30, 2021	December 31, 2020
Lease liability	\$ 5,085	\$ 5,257
Less: current portion	(710)	(742)
<b>Classified as a long-term liability</b>	<u>\$ 4,375</u>	<u>\$ 4,515</u>

  

Undiscounted lease payments (in thousands)	June 30, 2021	December 31, 2020
Later than a year	\$ 6,648	\$ 7,147
Not later than a year	998	983
	<u>\$ 7,646</u>	<u>\$ 8,130</u>

The Partnership recognized \$4.8 million of lease liability on January 1, 2019. The lease liability was measured at the present value of the remaining lease payments of \$8.3 million as of January 1, 2019, discounted using an incremental borrowing rate at

(Expressed in US Dollars - unaudited)

---

that date of 12%. The Company recorded a right of use asset of the same amount (Note 14) which relates to its long-term office lease. Depreciation of the right of use asset is calculated using the straight line method over the remaining lease term.

Details of the above leases are disclosed in Note 28.

For the three and six months ended June 30, 2021, the Partnership recognized interest expense on the lease liability of \$0.2 million and \$0.3 million, respectively, (2020: \$0.2 million and \$0.3 million respectively) which was recorded within interest expense.

The Partnership elected not to apply the lease standard to short term leases with an initial term of 12 months or less but rather recognize the lease expense on a straight line basis. The Partnership leases office space in London, Amsterdam, and Hong Kong on short term leases with initial terms of 12 months or less.

## 18. EQUITY

### Issued partnership capital

GDH LP has two classes of ownership interests, representing limited partner interests:

- (i) GDH LP Class A Units, which were subdivided into GDH LP A-1 Units, all of which are held by GDH Ltd., and GDH LP A-2 Units, all of which are held indirectly by GDH Ltd., through GDH Ltd.'s wholly owned U.S. blocker subsidiary, GDH Intermediate LLC, which was established as a tax-efficient blocker corporation or similar entity for U.S. tax purposes; and
- (ii) GDH LP Class B Units, all of which are held by GGI, employees of GDH LP as part of the GDH LP employee compensation plan and certain former First Coin shareholders.

The GDH LP Class A Units and GDH LP Class B Units generally rank pari passu as to all distributions from GDH LP and they otherwise rank equally in all material respects, including from an economic and from a voting perspective.

Under the terms of the LPA, GDH LP Class B Units will, subject to certain limitations, be exchangeable for GDH Ltd. shares on a one-for-one basis subject to customary adjustments for stock splits, stock dividends and reclassifications and other similar transactions or, at the election of GDH LP, GDH LP may deliver an amount of cash in lieu of GDH Ltd. shares to an exchanging GDH LP Class B Unit holder. On receipt of a request to exchange, the Partnership or the General Partner will cancel the Class B Units and will cause GDH Ltd. to issue common shares. In addition, GDH LP will issue Class A Units.

### Private Investment in Public Equity ("PIPE")

On November 12, 2020 (the "Closing"), GDH Ltd. closed a PIPE of \$50.0 million of aggregate gross proceeds (\$49.3 million net of cash share issuance costs of \$0.7 million). As part of the PIPE, GDH Ltd. issued 19,070,000 shares and 4,767,500 warrants. Each share was accompanied by a warrant to purchase 0.25 of an ordinary share ("security") and each security was issued at a price of C\$3.50. Each warrant is exercisable into an ordinary share of the Company for a term of two years from the date of issuance at an exercise price of C\$8.25. All securities issued pursuant to the PIPE will be subject to certain selling restrictions set forth in the investment agreements. The investment agreements provide that: (i) no sales are permitted during the first six months from the Closing; (ii) sales of up to 33.3% of total shares issued are permitted seven to nine months after the Closing, subject to a maximum daily sale participation of no more than 10% of daily traded volume; (iii) sales of up to 66.6% of the total shares issued are permitted ten to twelve months after the Closing, subject to a maximum daily sale participation of no more than 10% of daily traded volume; and (iv) until eighteen months after the Closing, all shares remain subject to a daily selling restriction of no more than 10% of daily traded volume. The selling restrictions terminate upon certain corporate actions by GDH Ltd.

Under the terms of the LPA, the Partnership will issue a Class A Unit for each GDH Ltd. common share issued and any liability associated with the warrant will be pushed down to the Partnership. On initial recognition, the warrants were valued at \$6.5 million and are recorded as a derivative financial liability as these warrants are exercisable in Canadian dollars, differing from the Partnership's functional currency. As at June 30, 2021 the value of the warrant liability is \$50.0 million (December 31, 2020 - \$20.8 million) and the Partnership recognized a \$2.7 million gain for the three months ended June 30, 2021 (2020 - \$nil) and a \$34.2 million loss for the six months ended June 30, 2021 (2020 - \$nil).

The fair value of the warrant liability is calculated using the Black-Scholes Option Pricing Model. A continuity table for the change in the liability-classified warrant and the inputs used to value the warrant liability as at June 30, 2021 and December 31, 2020 are included in Note 26. These are the only warrants outstanding in GDH Ltd. During the period ended June 30, 2021,

# Galaxy Digital Holdings LP

(Expressed in US Dollars - unaudited)

---

1,128,554 of the warrants were exercised at an exercise price of C\$8.25. At June 30, 2021, there are 3,638,946 warrants outstanding and exercisable (December 31, 2020 - 4,767,500).

## Issued capital

### Class A Units

During the period ended June 30, 2021, the Partnership issued 5,460,638 (2020 - 1,644,153) Class A Units, post withholding taxes, to GDH Ltd. on exchange of Class B Units, issuance of Class A Units to GDH Ltd. on exercise of options and issuance of Class A Units to GDH Ltd. on exercise of the PIPE warrants, as well as issuance of Class A Units as consideration for the business combination (Note 6).

In fiscal 2019, GDH Ltd. received approval from its Board of Directors and TSX-V to purchase up to approximately 7.3% of its issued and outstanding ordinary shares and 10% of its public float (the "Share Repurchase Program"). All shares were purchased for cancellation. On the repurchase of the shares of GDH Ltd., an equivalent number of Class A Units in GDH LP was cancelled.

GDH Ltd. began repurchasing shares on October 2, 2019. GDH Ltd. repurchased a total of 3,600,997 shares for a total cost of C\$3.9 million (\$2,874,622) for the year ended December 31, 2020. Shares repurchased from October 2, 2019 through April 17, 2020 were 4,916,431 for a total cost of C\$5.5 million. All repurchased shares of GDH Ltd. and the equivalent number of Class A Units in the Partnership were cancelled. Effective April 17, 2020, GDH Ltd. completed its normal course issuer bid program repurchases.

### Class B Units

During the period ended June 30, 2021, 341,805 (2020 - 1,644,153) Class B Units were exchanged for common shares of GDH Ltd. The number of Units exchanged for 2020 is after the withholding and cancellation of 20,951 Class B Units, associated with the withholding obligation on the vested compensatory Class B Units.

As of June 30, 2021, there were 96,709,142 (June 30, 2020 - 64,679,696) Class A Units and 222,575,080 (June 30, 2020 - 217,982,803) Class B Units outstanding. The change during the quarter ended June 30, 2021 was due to exchanges of Class B Units for common shares of GDH Ltd. (and into Class A Units of GDH LP), issuance of Class A Units on exercise of options and issuance of Class A Units as a result of the exercise of \$20.0 million PIPE warrants, as well as issuance of Class A Units as consideration for the business combinations (Note 6).

## Distributions

In June 2020, the board of the General Partner approved a tax distribution of up to \$2.5 million in respect of taxable income related to tax year 2019 and estimated taxable income related to tax year 2020 which was distributed in 2021. Certain of the recipients of the tax distributions are related parties (Note 24). During the period ended June 30, 2021, the General Partner made tax distributions of \$23.4 million in respect of taxable income related to tax year 2020.

Stock options awarded to directors included in director fees	178	—	386	—
	<b>\$ 13,726</b>	<b>\$ 3,291</b>	<b>\$ 21,033</b>	<b>\$ 4,912</b>

<sup>(i)</sup> Includes expense associated with restricted stock issued in connection with the Partnership's acquisition of Vision Hill

## Compensatory Class B Unit Awards and Stock Option Plan

The Partnership has awarded Class B Unit awards and stock options (equity instruments) to eligible officers and employees.

### *Compensatory Class B Unit Awards*

#### 2020

On December 15, 2020, the Partnership transferred 980,932 Class B Units of GDH LP to certain officers and employees as compensation. The Class B Units transferred were comprised of 19,068 Standard Units and 961,864 Profit Interest Units. The terms of the Class B Units are as follows:

- Standard Units - 19,068 of the Standard Units vested 100% on December 15, 2020. Once vested, each Standard Unit can be exchanged for one share of GDH Ltd. for no additional consideration. The fair value of the Standard Units transferred, measured as of the grant date, was \$91,078 (or approximately \$4.7765 per Standard Unit) based on the 10-day volume weighted average share price of GDH Ltd. from December 2, 2020 through December 15, 2020 ("10-day WA") and on the number of Standard Units expected to vest (100%). The fair value was recognized in 2020.
- Profit Interest Units - 355,932 of the Profit Interest Units vest on December 15, 2020, 15,226 vest on December 1, 2021, 390,226 vest on December 1, 2022, 185,255 vest on December 1, 2023 and 15,226 vest on December 1, 2024. Once a Profit Interest Unit has vested and has been fully "caught up", such Profit Interest Unit may be exchanged for one share of GDH Ltd. for no additional consideration. The fair value of the Profit Interest Units granted was \$3,501,531 (or approximately \$3.8325 per Profit Interest Unit). The fair value of the Profit Interest Units was estimated using the probability-weighted expected return method. In applying this method, a payoff was determined for a Profit Interest Unit under three potential scenarios, each payoff was weighted by an estimated probability of the corresponding scenario, and then the probability-weighted payoffs were discounted to the date of grant and summed. The scenarios, probabilities, and other inputs into the model consider, among other things, the results of a one-period trinomial model, the results of a standard Black-Scholes option pricing model under different assumptions, and the estimated fair value of a common share of GDH Ltd. The scenarios probability ranged from 5% to 65%, the annual discount rate used was 0.50%, the term used was 5.04 years, and the share price used ranged from C\$0 to C\$100. The number of Profit Interest Units expected to vest ranged from 90% to 100%.

(Expressed in US Dollars - unaudited)

The following table summarizes the activity related to the compensatory Class B Units during the respective periods:

<b>Description</b>	<b>Class B Units</b>
Balance, December 31, 2019	18,604,790
Transferred	980,932
Exchanged	(3,129,727)
Forfeited	(20,951)
Forfeited / transferred	(980,932)
Balance, December 31, 2020	15,454,112
Exchanged	(142,105)
Forfeited	(35,593)
Balance, June 30, 2021	15,276,414
Class B Units exercisable, June 30, 2021	8,824,324
Class B Units exercisable, December 31, 2020	8,966,429

Under the terms of the LPA, the General Partner may elect, at its sole discretion, to pay an amount of cash equal to the current market price of the applicable number of shares in lieu of delivering the applicable number of shares. However, as the Partnership does not have a present obligation to settle in cash, the Class B Units are accounted for as equity settled awards.

### *Equity Plan*

The Partnership has granted stock options to employees, officers, directors and consultants of the Partnership under the GDH Ltd. stock option plan (the “Plan”), subject to the approval of the board of directors of GDH Ltd. Under the Plan, the number of stock options granted to any person within a one-year period will not exceed 5% and the number granted to those individuals considered consultants or providing investor relations services may not exceed 2% in a one-year period, in each case on a fully exchanged basis. In addition, the exercise price of each option may not be less than the market price of GDH Ltd.’s shares at the date of grant. Options granted under the Plan will have a term not to exceed 5 years and will be subject to vesting provisions as determined by the board of directors of GDH Ltd., who administer the Plan. On exercise of an option, the holder will receive one common share in GDH Ltd. and GDH LP will issue one Class A Unit to GDH Ltd. The maximum number of shares reserved for issuance under the Plan is fixed at 45,565,739 shares of GDH Ltd. Following the approval of the Long Term Incentive Plan, the Company will no longer make grants under the Plan and future grants will be made from the Long Term Incentive Plan. The Plan reserve has been rolled over into the Long Term Incentive Plan.

### *Long Term Incentive Plan*

In May 2021, the Board of Directors of GDH Ltd. approved the GDH Ltd. Long Term Incentive Plan (“LTIP”) to grant stock options, stock appreciation rights, restricted stock, and share units in the form of restricted share units and/or performance share units) to employees, officers, and consultants of GDH Ltd. and its affiliates (inclusive of the Partnership) and deferred share units to non-employee directors of GDH Ltd. and non-employee managers of the board of managers of the General Partner. Under the LTIP Plan, the exercise price of each option may not be less than the market price of GDH Ltd.’s shares at the date of grant. Options granted under the LTIP will have a term not to exceed ten years and will be subject to vesting provisions as determined by the board of directors of GDH Ltd., who administer the LTIP. On exercise of an option, the holder will receive one common share in GDH Ltd. and GDH LP will issue one Class A Unit to GDH Ltd. The maximum number of shares reserved for issuance under the LTIP is fixed at 48,290,478 shares of GDH Ltd. Following the approval of the LTIP, the Company will no longer make grants under the Plan and future grants will be made from the LTIP Plan. The Plan reserve has been rolled over into the LTIP.

### *Non-Treasury Plan*

In May 2021, the Board of Directors of the Company approved the GDH Ltd. Non-Treasury Share Unit Plan (“Non-Treasury Plan”) as a supplement to the LTIP under which grants made under the plan are settled solely in cash. Share units are restricted share units or performance share units.

(Expressed in US Dollars - unaudited)

---

## *Stock Option Grants*

On April 9, 2020, the Partnership granted 6,810,000 stock options ("April 2020 Grant") with a fair value of \$1.8 million (or a weighted average fair value of approximately of \$0.4232 per option). The stock options granted vest by a third annually commencing on March 1, 2021. The exercise price is C\$1.35 per option for the options vesting on March 1, 2021; C\$1.60 for the options vesting on March 1, 2022; and C\$1.85 for the options vesting on March 1, 2023. The awards will expire on April 9, 2025 if not exercised.

On November 16, 2020, the Partnership granted 6,030,000 stock options ("November 2020 Grant") with a fair value of \$13.3 million (or a weighted average fair value of approximately \$2.8625 per option). 1,400,000 options granted vest by a third annually commencing on December 1, 2022. 2,630,000 options granted vest by a quarter annually commencing on December 1, 2021. 2,000,000 options granted vest equally on November 16, 2022 and November 16, 2024. The exercise price is C\$5.65 per option. The awards will expire on November 16, 2025 if not exercised.

On December 3, 2020, the Partnership granted 7,500,000 stock options ("December 3 2020 Grant") with a fair value of \$24.0 million (or a weighted average fair value of approximately \$3.1944 per option). The options granted vest by a quarter annually commencing on December 1, 2021. The exercise price is C\$6.21 per option. The awards will expire on December 3, 2025 if not exercised.

On December 8, 2020, the Partnership granted 555,000 stock options ("December 8 2020 Grant") with a fair value of \$1.2 million (or a weighted average fair value of approximately \$3.1055 per option). The options granted vest by a quarter annually commencing on December 1, 2021. The exercise price is C\$6.00 per option. The awards will expire on December 8, 2025 if not exercised.

On December 21, 2020, the Partnership granted 100,000 stock options ("December 21 2020 Grant") with a fair value of \$0.4 million (or a weighted average fair value of approximately \$4.1277 per option). The options granted vest by a quarter annually commencing on December 1, 2021. The exercise price is C\$8.02 per option. The awards will expire on December 21, 2025 if not exercised.

On May 27, 2021, the Partnership granted 3,725,000 stock options ("May 27, 2021 Grant") with a fair value of \$36.4 million (or a weighted average fair value of approximately \$13.6597 per option). The options granted vest over three to four years with varying vest schedules. The exercise price is C\$23.12 per option for 3,225,000 stock options and C\$25 per option for 500,000 stock options. The awards will expire on May 27, 2026 if not exercised.

## Grants to Directors

On June 25, 2020, the Partnership granted 750,000 stock options ("June 2020 Grant") with a fair value of \$0.5 million (or a weighted average fair value of approximately of \$0.7011 per option) to the external directors of GDH Ltd. and external managers of the Partnership. The stock options granted are exercisable into one common share of GDH Ltd. at an exercise price of C\$1.39 per option for a period of five years and vest fully on June 1, 2021.

On November 16, 2020, the Partnership granted 150,000 stock options with a fair value of \$0.4 million (or a weighted average fair value of approximately \$2.8625 per option) to an external manager of the Partnership. The stock options granted are exercisable into one common share of GDH Ltd. at an exercise price of C\$5.65 per option for a period of five years and vest fully on June 1, 2021.

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

The fair value of the options granted was measured using the Black-Scholes option pricing model with the following weighted average inputs. There were 3,725,000 options granted during the six months ending June 30, 2021.

<b>Inputs to the Black-Scholes Model</b>	<b>June 30, 2021</b>	<b>December 31, 2020</b>
Share price <sup>(i)</sup>	C\$23.04	C\$0.97 - C\$8.02
Exercise price	C\$23.12 - C\$25.00	C\$1.35 - C\$8.02
Expected annual volatility <sup>(ii)</sup>	95%	85% - 90%
Expected term (years)	5.00	5.00
Dividend yield	0%	0%
Risk-free interest rate <sup>(iii)</sup>	0.92%	0.35% - 0.60%
Forfeiture rate	12% - 40%	0% - 48%

<sup>(i)</sup> The closing price of GDH Ltd. shares on the respective grant dates were used.

<sup>(ii)</sup> Volatility was selected based on the holdings of the Partnership and a review of the historical volatility of digital assets and academic studies of historical venture equity volatility. In addition, the historical trading volatility of the shares of GDH Ltd. was also considered.

<sup>(iii)</sup> The risk-free interest rate was calculated by interpolating Government of Canada bond yields over the expected terms of the respective option grants.

The following table summarizes the activity related to the stock options during the three months ended June 30, 2021 and for the year ended December 31, 2020:

<b>Description</b>	<b>Number of Options</b>	<b>Weighted Average Exercise Price (C\$)</b>
Balance, December 31, 2019	17,684,300	2.74
Granted <sup>1</sup>	21,895,000	4.45
Exercised	(1,809,800)	2.52
Forfeited	(6,203,866)	2.32
Balance, December 31, 2020	<u>31,565,634</u>	4.03
Granted	3,725,000	23.37
Exercised	(2,770,091)	2.51
Forfeited	(566,664)	1.76
Balance, June 30, 2021	<u>31,953,879</u>	6.44
Options exercisable as of June 30, 2021	8,027,726	
Options exercisable as of December 31, 2020	5,207,000	

<sup>1</sup> Includes 5,310,468 options granted as part of an inducement grant that were not considered a use of the stock option plan, but are granted in accordance with the terms of the plan.

There were 2,770,091 options exercised during the six months ended June 30, 2021. There were 1,809,800 options exercised for the year ended December 31, 2020. For stock options outstanding as of June 30, 2021, the weighted average remaining contractual life is 3.65 years (December 31, 2020 - 3.91 years).

A summary of the stock options outstanding as at June 30, 2021 is as follows:

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

December 21, 2020	100,000	—	8.02	December 21, 2025
May 27, 2021	3,725,000	—	23.12 - 25.00	May 27, 2026
<b>Total</b>	<b>31,953,879</b>	<b>8,027,726</b>		

Under certain circumstances, the options may be settled by cash payments at the election of the Partnership. However, as the Partnership does not have a present obligation to settle in cash, the stock options are accounted for as equity settled awards.

### Restricted Share Units

On May 27, 2021, the Partnership granted 6,191,482 shares of restricted share units with a fair value of \$87.4 million (or a weighted average fair value of \$19.0665). The restricted share units vest over three to four years with varying vest schedules.

On May 27, 2021, the Partnership granted 422,016 restricted share units that will be settled in cash. The restricted share units vest over three to four years with varying vest schedules and had a fair value of \$7.9 million at grant date. The outstanding liability related to cash settled units as of June 30, 2021 was \$0.2 million.

### Restricted Shares of GDH Ltd.

On December 15, 2020, the Partnership issued 1,079,971 restricted shares of GDH Ltd. with a fair value of \$5.2 million (or at a weighted average fair value of \$4.7765). Of the shares granted, 454,971 vest on December 1, 2023 and the remainder on December 1, 2024. The restricted share units were issued as part of an inducement grant to an officer.

On May 19, 2021, in connection with the Vision Hill business combination (Note 6), the Partnership granted 845,428 restricted shares of GDH Ltd. with a fair value of \$16.2 million (or a weighted average fair value of \$19.1064). The restricted shares vest annually over three years.

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

### Net Income per Unit

The below table presents the basic and diluted net income per unit for the three months ended June 30, 2021.

	Class A Unitholders	Class B Unitholders	Total Class A and Class B Unitholders
Basic income (loss) per unit	\$ (0.55)	\$ (0.56)	\$ (0.56)
Diluted income (loss) per unit	N/A	N/A	(0.56)
Net income (loss) used in the calculation of basic and diluted income per unit	(51,142)	(124,692)	(175,834)
Weighted average number of units for the purposes of basic income per unit <sup>1</sup>	92,727,128	222,571,350	315,298,478
Weighted average number of units for the purposes of diluted income per unit <sup>2</sup>	N/A	N/A	315,298,478

<sup>1</sup> Exclude outstanding stock that are potentially subject to recall

<sup>2</sup> Potentially dilutive Compensatory B Units awards, stock options, restricted stock, restricted stock units, and warrants were excluded from the computation of diluted loss per unit for the three months ended June 30, 2021 because their effect would have been antidilutive.

The below table presents the basic and diluted net income per unit for the six months ended June 30, 2021.

	Class A Unitholders	Class B Unitholders	Total Class A and Class B Unitholders
Basic income per unit	\$ 2.16	\$ 2.18	\$ 2.18
Diluted income per unit	N/A	N/A	1.97
Net income used in the calculation of basic and diluted income per unit	198,773	485,351	684,124
Weighted average number of units for the purposes of basic income per unit <sup>1</sup>	91,869,066	222,666,482	314,535,548
Weighted average number of units for the purposes of diluted income per unit	N/A	N/A	346,562,472

For the period ended June 30, 2021, the weighted average number of total Units (Class A and Class B Units) for the purposes of diluted income per unit assumes the potential vesting of the Class B Units dilutive stock options, restricted stock, held back shares, and restricted stock units under the GDH LP equity compensation plan.

Reconciliation of weighted average number of units for the purposes of basic income per unit to weighted average number of units for the purposes of diluted income per unit:

(Expressed in US Dollars - unaudited)

## 23. DIGITAL ASSET MINING AND MINING FINANCE

During January 2021, the Partnership entered a two-year managed hosting arrangement with a service provider for its mining operations. Per the arrangement, the Partnership pays its operating charges based on a fixed per Kwh hosting rate in accordance with a pre-determined methodology. The service provider is entitled to review electricity costs on a quarterly basis to determine the actual power costs incurred by the mining facility. If the power costs are greater or less than the costs used to calculate the current hosting rate, the service provider will notify the Partnership that its hosting rate will increase or decrease by an amount equal to the applicable change in power costs.

The Partnership closely monitors the price volatility associated with Bitcoin and acknowledges that a potential decline in price can have an adverse effect on the profitability of its operations. Profitability varies based on the value of the mining rewards the Partnership receive against the costs associated with the Partnership's operations which includes energy consumption, hosting fees, and mining equipment. The profit or loss of our mining operation is calculated daily by measuring all mining expenses against the fair value of Bitcoin.

For the three and six months ended June 30, 2021 and 2020, net income from digital asset mining was composed of the following (in thousands):

	Three months ended June 30, 2021	Three months ended June 30, 2020	Six months ended June 30, 2021	Six months ended June 30, 2020
Income from digital asset mining	\$ 1,529	\$ —	\$ 2,764	\$ —
Hosting fees	(311)	—	(465)	—
Depreciation expense	(231)	—	(388)	—
	\$ 987	\$ —	\$ 1,911	\$ —

### Mining equipment

The Partnership purchased mining equipment that has a 256-bit secure hashing algorithm (SHA-256) to verify transactions via proof of work consensus mechanism and publish blocks to the Bitcoin network. The Partnership only utilizes mining equipment to mine for Bitcoin, however, the miners are capable of mining alternate cryptocurrencies whose blockchain utilize the 256-bit secure hashing algorithm.

As part of its mining business, the Partnership enters into lease agreements with counterparties as a lessor. Mining equipment lease income for three and six months ended June 30, 2021 was \$0.6 million and \$1.1 million (2020 - \$nil, \$nil).

## 24. RELATED PARTY TRANSACTIONS

The Partnership's related parties include its subsidiaries, associates over which it exercises significant influence, and key management personnel. Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the Partnership, directly or indirectly. Key management personnel include officers, directors, companies controlled by officers or directors and companies with common directors of the Partnership.

### **Compensation of Key Management Personnel**

Key management personnel include twelve individuals (December 31, 2020 - thirteen individuals), consisting of officers, former officers and certain employees, who are considered to have decision making authority. Compensation provided to key management personnel for the three and six months ended June 30, 2021 and 2020 are as follows:

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

(in thousands)	<b>Three months ended June 30, 2021</b>	<b>Three months ended June 30, 2020</b>	<b>Six months ended June 30, 2021</b>	<b>Six months ended June 30, 2020</b>
Base compensation and accrued bonuses*	\$ (4,792)	\$ 997	\$ 22,877	\$ 2,102
Benefits	66	76	252	139
Equity based compensation	6,328	2,686	11,701	5,602
Profit share arrangement expense	5,622	—	8,516	—
<b>Total</b>	<b>\$ 7,224</b>	<b>\$ 3,759</b>	<b>\$ 43,346</b>	<b>\$ 7,843</b>

\*For the six months ended June 30, 2021, amounts include approximately \$20.6 million (2020 - \$0.2 million and \$0.5 million) of accrued bonuses within accounts payable and accrued liabilities.

For the period of one year starting on January 1, 2021 (the “earnout period”), related to the acquisition of BFC, certain management personnel is entitled to receive a percentage of net profit of BFC, payable sixty days after the earnout period, if certain financial metrics are achieved. As of June 30, 2021, accounts payable and accrued expenses include \$12.2 million of such profit share compensation to the management personnel.

### Distributions

During the period ended June 30, 2021, the Partnership made tax distributions of \$17.4 million (December 31, 2020 - \$1.9 million), of which \$nil (December 31, 2020 - \$0.2 million) is included in other accrued liabilities at period end, to individuals and a company considered to be related parties (Note 18).

### Sublease

GIP, which has leased the office space located on the 7<sup>th</sup> and 8<sup>th</sup> floors of 107 Grand Street, New York, New York 10013, has subleased to GDS to occupy the 8<sup>th</sup> floor on the same terms as the master lease (Note 28). In addition, effective August 1, 2019, GIP also subleased a portion of the 7<sup>th</sup> floor to GDS, including use of common areas (Note 28).

### Other

Certain key management personnel invested in funds that the Partnership manages. In addition, some members of key management serve as a board member for companies in which the Partnership or a fund it manages holds investments.

The Partnership's CEO is a member of the advisory board for two companies, resulting in the Partnership and that company being related parties. As at June 30, 2021, the Partnership had an investment in the companies with a combined value of \$42.0 million (December 31, 2020 - \$19.6 million).

In accordance with the LPA (Note 5), the Partnership will reimburse or pay for all reimbursable expenses of GDH Ltd. For the three and six months ended June 30, 2021, the Partnership paid or accrued \$1.4 million and \$2.8 million respectively (2020: \$0.3 million and \$0.5 million) on behalf of GDH Ltd., which has been included in general and administrative expenses (Note 22).

(Expressed in US Dollars - unaudited)

## 25. REPORTABLE SEGMENTS

The Partnership has identified five reportable segments: trading, principal investments, asset management, investment banking and mining. The five reportable segments represent the five lines of business for which the Partnership expects to earn income, incur costs and allocate resources. In determining the Partnership's segment structure, the Partnership considered the basis on which the chief operating decision-maker, as well as other members of senior management, review the financial and operational performance of the Partnership. Certain reclassifications have been made based on how the chief operating decision-maker reviews the performance of the Partnership.

### *Trading*

The trading group manages positions in cryptocurrency and other liquid digital assets contributed to the business at the outset and continues to invest and trade in those and related assets. The Partnership engages in several trading strategies (Note 7). The trading segment includes the performance of the over the counter (OTC) trading and of the short term and long term positioning of the Partnership's digital assets.

### *Principal Investments*

The principal investments business has a diverse portfolio of private principal investments across the blockchain ecosystem, including early- and later-stage equity, pre-launch network contributions, and other structured alternative investments (Note 8).

### *Asset Management*

The asset management business manages capital on behalf of third parties in exchange for management fees and performance-based compensation.

### *Investment Banking*

The investment banking business partners with high quality businesses operating in and around the blockchain ecosystem. The investment banking business offers the full spectrum of investment banking, including, but not limited to: general corporate advisory, mergers and acquisition (M&A), transaction advisory, restructuring and capital raising.

### *Mining*

The Partnership launched Galaxy Digital Mining LLC ("GDM") in October 2020. GDM has a strategic focus to provide novel and sophisticated financial tools for North American miners. GDM will serve as a one-stop financial services platform for miners, drawing the firm's expertise in trading and risk management, investing and lending, and corporate advisory under one umbrella, tailored to the needs of the mining sector. In addition, GDM has also established its own proprietary Bitcoin mining operation, which will host its machines at a third-party data center in the United States.

Corporate and Other consists of the Partnership's unallocated corporate overhead and other unallocated costs not identifiable to any of the five reportable segments.

Assets and liabilities by each of the reportable segments as of June 30, 2021 are as follows (in thousands):

	<b>Trading</b>	<b>Principal Investments</b>	<b>Asset Management</b>	<b>Investment Banking</b>	<b>Mining</b>	<b>Corporate and Other</b>	<b>Totals</b>
<b>Total assets</b>	\$ 1,824,233	\$ 813,923	\$ 416,470	\$ 6,357	\$ 42,541	\$ 52,787	\$ 3,156,311

## 26. FINANCIAL INSTRUMENTS, DIGITAL ASSETS AND RISK

The fair values of all financial instruments, digital assets and digital assets sold short were measured using the cost, market or income approaches. The financial instruments, digital assets and digital assets sold short measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values, with the designation based upon the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy are:

*Level 1 Inputs:* Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

*Level 2 Inputs:* Quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active, or other observable inputs other than quoted prices.

*Level 3 Inputs:* One or more inputs to the valuation are unobservable and significant to the fair value measurement of the asset or liability. (Unobservable inputs reflect management's assumptions on how market participants would price the asset or liability based on the information available.)

The following table presents the fair value hierarchy for the Partnership's digital assets and investments measured at fair value as of June 30, 2021 and December 31, 2020 (in thousands):

<b>Assets</b>	<b>As of June 30, 2021</b>				<b>As of December 31, 2020</b>			
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Digital assets	—	1,574,112	5,553	\$ 1,579,665	\$ —	\$ 844,066	\$ 6,314	\$ 850,380
Digital assets receivable	—	11,775	79,562	91,337	—	—	19,724	19,724
Digital assets posted as collateral	—	40,977	—	40,977	—	15,625	—	15,625
Common stock	53,610	13,002	1,845	68,457	19,572	10,398	—	29,970

*Valuation of Assets / Liabilities that use Level 1 Inputs (“Level 1 Assets / Liabilities”).* Consists of the Partnership's investments in common stock and investments sold short, where quoted prices in active markets are available.

*Valuation of Assets / Liabilities that use Level 2 Inputs (“Level 2 Assets / Liabilities”).* Consists of the Partnership's investments in common stock, limited partnership/limited liability company interest investments, pre-launch network investments and warrants/trust units/trust shares and the majority of the Partnership's convertible notes, preferred stock and digital assets, including its digital assets posted as collateral and digital assets sold short, where quoted prices in active markets are available. For the digital assets, the fair value is determined by the volume-weighted average of prices across principal exchanges as of 12:00 UTC, per coinmarketcap.com\*.

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

\* Coinmarketcap.com is a pricing aggregator, as the principal market or most advantageous market is not always known. The Partnership believes any price difference amongst the principal market and an aggregated price to be immaterial.

The Partnership's pre-launch network investments are generally carried at the total contributions made to date as there are no conditions indicating a change in value and therefore cost approximates fair value. For the Partnership's other investments classified as Level 2, the market approach is used. These investments are classified as Level 2 as they are based on other observable inputs other than quoted prices, such as transactions in the equity of the investments.

*Valuation of Assets / Liabilities that use Level 3 Inputs ("Level 3 Assets / Liabilities")*. Consists of certain of the Partnership's digital assets, common and preferred stock, convertible notes, and the majority of the Partnership's digital assets receivables, limited partnership/limited liability company interest investments and warrants/trust units/trust shares.

- For digital assets and digital assets receivables, fair value was determined utilizing a volume-weighted average of prices across principal exchanges as of 12:00 UTC, with an adjustment for time of receipt of tokens and/or potential volatility. If the digital asset was contractually or legally to be received over a specific vesting period of potentially multiple years, restricted for trading or lacked access to an active market, a discount was applied to the closing prices. The discount was calculated using the Black-Scholes model to determine the cost to insure the subject asset against the risk of encountering lower prices.
- For the Partnership's common stock investments that were restricted for trading, a discount for lack of marketability was applied. The discount was calculated using the Black-Scholes model.
- For the Partnership's preferred stock investments:
  - The prior transaction approach was used with adjustments, as the transaction in the subject entity's equity may have different characteristics than the Partnership's preferred stock investment. The allocation of the subject entity's equity value (based on the market approach) to its various classes of shares was determined using the Black-Scholes model.
  - One of the Partnership's preferred stock investments used the adjusted book value method to estimate fair value. This is an approach that relies on adjusting the most recently reported book values of the subject enterprise's assets to their market values and subtracting the corresponding liabilities.
  - For some of the Partnership's preferred stock investments, the Partnership has taken further discounts for lack of marketability and control.
- For the Partnership's convertible notes, the market approach is used, with further fair value adjustments (e.g. the application of unobservable probabilities).
- For a majority of the Partnership's limited partnership/limited liability company interest investments in funds, fair value was based on the net asset value provided by the fund. For one limited partnership interest investment in a fund, fair value was based on a probability weighted estimated future payout under the income approach.
- For the Partnership's investment in warrants/trust units/trust shares, the Black-Scholes model was used to determine the fair value.

The Partnership's warrant liability is also classified as a Level 3 financial liability. The Black-Scholes model was used to determine the fair value.

The fair value of Level 3 assets and liabilities is inherently subjective. Specifically, because of the uncertainty of fair valuation of investments that do not have readily ascertainable market values, the VC's conclusion of fair value for an investment on a date may differ significantly from (1) the fair value conclusions of other knowledgeable market participants and/or (2) prior or subsequently observed transaction prices, including the price paid to acquire, or received to sell, the investment itself.

## **Other**

Adjustments to observable prices obtained for assets that are deemed to lack access to an active market are based on empirical studies designed to estimate liquidity discounts. To estimate the appropriate discount to apply, the Partnership considered the relevant facts and circumstances, including features of the subject assets, expectations related to an active market existing in the future, costs associated with accessing (or trading outside of) existing exchanges as applicable, price volatility of comparable assets, and other identified risks associated with the subject assets.

A verified prior transaction is initially given 100% weighting in a fair value conclusion (if completed at arm's length), but subsequently such weighting is adjusted based on the merits of newly observed data. As a result, in the absence of disconfirming data, an unadjusted prior transaction price may not be considered "stale" for months or, in some cases, years.

<b>Liabilities</b>	<b>Fair value at December 31, 2020</b>	<b>Conversions</b>	<b>Revaluation of Warrant Liability</b>	<b>Fair Value at June 30, 2021</b>
Warrant liability	\$ 20,781	\$ (4,890)	\$ 34,154	\$ 50,045

Transfers in and out of Level 3 are considered to have occurred at the beginning of the period the transfer occurred. Total transfers into Level 3 were \$12.0 million and total transfers out of Level 3 were \$11.9 million. The transfers into Level 3 for preferred stock was due to fair value determined by a market approach that utilized an option pricing based methodology. The transfers into Level 3 for digital assets and digital assets receivable were due to digital assets that are restricted or that are expected to be distributed over time according to a release schedule. The transfers out of Level 3 for digital assets and digital assets receivable were due to the return of tokens that were previously restricted as they were committed for a proof of stake program and the removal of restrictions or distributions of digital assets.

The following is a reconciliation of Level 3 Assets for the year ended December 31, 2020 (in thousands):

<b>Assets</b>	<b>Fair value at December 31, 2019</b>	<b>Contributions</b>	<b>Purchases</b>	<b>Sales/ Distributions</b>	<b>Net Realized Gain (Loss) on Digital Assets and Investments</b>	<b>Net Unrealized Gain/(Loss) on Digital Assets and Investments</b>	<b>Transfers in /(out) of Level 3</b>	<b>Fair Value at December 31, 2020</b>
Digital assets	\$ 189	\$ —	\$ 250	\$ (618)	\$ 537	\$ 4,925	\$ 1,031	\$ 6,314

(Expressed in US Dollars - unaudited)

---

transfers into Level 3 for LP/LLC interest was due to a fair value determined by an income approach that utilized discounted cash flows, fair value determined by a market approach that utilized an option pricing based methodology and an investment, which utilizes net asset values provided by funds. The transfers into Level 3 for digital assets and digital assets receivable were due to restrictions of digital assets committed for a proof of stake program and due to digital assets that are expected to be distributed over time according to a release schedule. The transfers out of Level 3 for preferred stock were due to the availability of an observable input (transaction in the investment entity), the transfer out of Level 3 for convertible note was due to the acquisition completed in the fourth quarter of 2020, the transfer out of Level 3 for warrants/trust units/trust shares was due to the expiry of warrants during the year and the transfers out of Level 3 for digital assets were due to the removal of restrictions.

The carrying values of the Partnership's cash, receivable for digital asset trades, digital asset loans receivable, assets posted as collateral, receivables, due from broker, loans receivable, accounts payable and accrued liabilities, payable for digital asset trades, digital asset loans payable and collateral payable approximate fair value due to their short maturities. The carrying value of the Partnership's lease liability is measured as the present value of the discounted future cash flows.

Warrant liability	\$20,781	Volatility	85%
		Time to liquidity event (years)	1.87 - 2.0
		Risk free rate	0.17% - 0.25%
		Expected dividend payout ratio	—
		Dilution factor	1.5%

<sup>1</sup>Relates to the probability of a deal closure with a potential buyer of the underlying company, with either partial default or full recovery of the amount outstanding of the convertible notes, or no deal closure with a potential buyer and dissolution of the underlying company.

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

<sup>2</sup>Relates to the probability of the outcomes relating to an investment.

<sup>3</sup>The remaining fair value relates to additional investments which utilize net asset values provided by funds.

<sup>4</sup>The remaining fair value relates to an investments which utilizes a pre-money valuation of the Company.

For the six months ended June 30, 2021 and the year ended December 31, 2020, the latest available reported net asset value of the underlying funds were used to fair value the Level 3 limited partnership/ limited liability company interests.

As indicated above, certain of the Level 3 Assets had adjustments applied to the prices used to determine fair value. The Partnership does not believe a change in unobservable inputs will have a significant impact on partners' capital.

### Valuation Techniques

The following tables summarize the valuation techniques and significant inputs used in the fair value measurement of the Partnership's digital assets and investments as of June 30, 2021 and December 31, 2020, respectively.

Category	Valuation Methods & Techniques	Key Inputs
Cryptocurrency	<ul style="list-style-type: none"> <li>• Volume-weighted average of trading prices</li> <li>• Black-Scholes model</li> <li>• Marketability adjustments</li> <li>• Liquidity adjustments</li> </ul>	<ul style="list-style-type: none"> <li>• Current trading prices of subject cryptocurrencies</li> <li>• Selected volatilities of subject cryptocurrencies</li> <li>• Selected discounts for lack of marketability/liquidity</li> </ul>
Pre-Network launch	<ul style="list-style-type: none"> <li>• Prior transactions method</li> </ul>	<ul style="list-style-type: none"> <li>• Prior prices of subject pre-launch network cryptocurrencies</li> </ul>
Convertible notes	<ul style="list-style-type: none"> <li>• Prior transactions method</li> <li>• Probability-weighted expected return model</li> </ul>	<ul style="list-style-type: none"> <li>• Prior prices of subject convertible note</li> <li>• Scenario probabilities</li> <li>• Recovery rates</li> </ul>
Preferred stock	<ul style="list-style-type: none"> <li>• Prior transactions method</li> <li>• Comparable transactions method</li> <li>• Backsolve method in an option pricing model framework</li> <li>• Equity allocation using option pricing model framework</li> <li>• Volume-weighted average of trading prices</li> <li>• Control adjustments</li> <li>• Marketability adjustments</li> <li>• Guideline public company method</li> <li>• Adjusted book value</li> </ul>	<ul style="list-style-type: none"> <li>• Prior prices of subject preferred stock</li> <li>• Expected time to exit</li> <li>• Volatility of the company's total equity</li> <li>• Risk free rate</li> <li>• Expected dividend payout ratio</li> <li>• Current trading prices of certain cryptocurrencies</li> <li>• Selected discounts for lack of control</li> <li>• Selected discounts for lack of marketability</li> <li>• Enterprise value-to-revenue multiple</li> <li>• Net assets of subject company</li> </ul>

## Industry

As of June 30, 2021 and December 31, 2020, details of the industry composition of the Partnership's digital assets and investments are as follows:

Industry	June 30, 2021		December 31, 2020	
	Percentage	# of Investments	Percentage	# of Investments
Other (Digital assets and Pre-Launch network investments) <sup>1</sup>	72 %	134	76 %	115
Finance	20	25	17	19
High tech industries	6	21	3	10
Services: Business	2	12	3	11
Finance technology	<1	2	<1	4
Media: Diversified and production	<1	1	<1	1
Utilities: Electric	0	0	<1	1
<b>Total</b>	<b>100 %</b>	<b>195</b>	<b>100 %</b>	<b>161</b>

<sup>1</sup> Other includes 130 cryptocurrencies as of June 30, 2021 (December 31, 2020 - 110) and multiple portfolio Partnership investments across the capital structure are considered one investment.

In the table above, multiple portfolio Partnership investments across the capital structure are considered one investment.

## Safeguarding of Digital Assets

The Partnership utilizes the Fireblocks platform to maintain custody, transfer, and secure a material portion of its digital assets associated with its trading businesses. Fireblocks, with locations in New York and Tel Aviv, utilizes a secure hot vault and secure transfer environment to help establish connections between the Partnership's wallets, exchanges, counterparties, and networks. Fireblocks utilizes multi-party computation ("MPC") protection layers to distribute private key secrets across multiple locations to ensure there is no single point of failure associated with the private keys. The use of MPC ensures private key shards are never concentrated to a single device at any point in time. The Partnership utilizes the Fireblocks Policy Engine to designate transaction approval policies for digital assets held within the Fireblocks portal. As such, administrators configure automated rules to ensure all transactions are disbursed based on the asset sent, total value of the transaction, source and destination of funds and signor requirements. All transactions initiated from Fireblocks that fail to meet the Partnership's pre-defined criteria per the engine policy are automatically rejected. The Partnership also utilizes the Fireblocks network as a settlement layer to transact and settle with pre-approved counterparties or entities. The Fireblocks Network utilizes secure enclave technology and data-in-motion encryption to prevent traditional vulnerabilities associated with authenticating wallet addresses. All internal wallets owned by the Partnership and external wallets for addresses of the partnerships counterparties require multiple approvals in accordance with our whitelisting policy. As such, the Partnership settles with counterparties or entities without the risk of losing funds due to deposit address attacks or errors.

Fireblocks is SOC 2 Type II certified for 2020 and undergoes a SOC 2 review on an annual basis. The Partnership reviews the Fireblocks SOC 2 report to ensure they maintain a secure technology infrastructure and that their systems are designed and operating effectively. Additionally, the Partnership reviews its own complementary user entity controls in conjunction with the Fireblocks controls to ensure that applicable trust services criteria can be met. Fireblocks maintains an insurance policy which has coverage for technology, cyber, and professional liability and is rated "A" by A.M. Best based on the strength of the policy and has had no known security breaches or incidents reported to date. The Partnership currently has an investment interest in Fireblocks in the form of preferred shares.

The Partnership also utilizes cold storage solutions to self-custody a portion of its digital assets offline. Private keys are generated, backed-up and stored in hardware wallets which are maintained in secured locations. Access to private keys and back-ups are segregated amongst authorized personnel throughout the Partnership to ensure appropriate segregation of duties are maintained between departments. Specific details relating to the Partnership's private key management protocols remain highly sensitive in nature and are only discussed internally with the appropriate personnel to minimize security threats.

The Partnership also utilizes institutional grade custodians to secure digital assets for its fund products. A material percentage of the digital assets in the Partnership's funds are custodied with Bakkt Trust Company, LLC ("Bakkt Warehouse"). Bakkt is SOC 1 Type I compliant as of April 22, 2021 and SOC 1 Type II compliant for the period of October 15, 2020 to April 22, 2021. Bakkt is a New York State Department of Financial Services (NYDFS) regulated qualified custodian and is also majority

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

owned by the Intercontinental Exchange ("ICE"). Bakkt's headquarters are in Atlanta, Georgia and business continuity operations can also be performed at ICE locations based in Chicago, New York and London. Terms and conditions for account services and offerings are pre-defined and agreed upon by both the Partnership and Bakkt per the Bakkt Trust Warehouse Agreement. The Partnership maintains internal controls to ensure accounts are appropriately created, restricted to designated individuals, and secured per account credentials. All Bakkt wallets require multi-signature authorization of 2 of 3 keys to approve each withdrawal transaction. The Bakkt Warehouse provides both online ("Warm Wallets") and offline ("Cold Wallets") custody solutions and its systems algorithmically balance between both storage mechanisms to minimize risks associated with online custody. Private keys are stored on hardened systems in cold storage and on FIPS 140-2 level 3 HSMs and are never transferred across any open or unencrypted communication channels. Bakkt's warm and cold wallets are covered by a \$125 million insurance policy from a global syndicate.

On an on-going basis, a designated individual from the Partnership reviews and monitors balances maintained at Bakkt against internal fund records to ensure holdings are complete and accurate. The Partnership performs monitoring and due-diligence procedures on Bakkt on an ongoing basis; review procedures include the assessment of Bakkt's Warehouse wallet policies to ensure they are in line with institutional grade standards. Additionally, the Partnership had reviewed Bakkt's most recent SOC 1 Type I and SOC 1 II type reports, covering the description of the Bakkt Warehouse System and the suitability of the design and operating effectiveness of its controls. The SOC 1 Type I report indicated the description fairly presented the Bakkt Warehouse system as of April 22, 2021 and the controls related to the control objectives were suitability designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively as of April 22, 2021. The SOC 1 Type II report indicated the description fairly presented the Bakkt Warehouse system that was designed and implemented throughout the period October 15, 2020 to April 22, 2021 and the controls related to the control objectives were suitability designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively throughout the period October 15, 2020 to April 22, 2021. The Partnership also reviews penetration test results to ensure Bakkt's critical systems are evaluated for potential vulnerabilities and exploits. The Partnership currently has an investment interest in Bakkt Holdings, LLC in the form of Class B Voting Units.

## ***Crypto Asset Trading Platforms***

The Partnership utilizes multiple cryptocurrency exchanges to assist in conducting digital trading activity. As such, the Partnership maintains digital asset balances on their exchange accounts to facilitate operations. Active exchanges are domiciled across multiple geographies including the United States, Malta, Luxembourg, Singapore, Seychelles, and Hong Kong. The Partnership has a robust due diligence program for all exchanges, regardless of domicile or jurisdiction. Each exchange is required to provide all information and documentation that is necessary to do business with the Partnership. Information security reviews are conducted on each exchange to assess data retention protocols, infrastructure, and applicable IT policies and procedures. Designated departments review all documentation to ensure each exchange meets pre-defined criteria before providing approval for onboarding. Additionally, the Partnership assesses security, reputation, and operational risks in its determination of utilizing any exchange. Once onboarded, each exchange is monitored on an ongoing basis to ensure they maintain compliance with required legal and regulatory standings.

As part of the Partnership's control procedures, certain individuals are designated to administrator and authenticate users with exchange access and secure accounts per IT security protocols. Upon opening a new account, passwords, application programming interface ("API") keys, and multi-factor authentication mechanisms are created to secure credentials under the Partnerships Password and Multi-Factor Authentication Policy. Credentials are managed in secured locations and are only made accessible to authorized personnel with privileged access. Address management features are utilized in accordance with each exchange and require withdrawal addresses to be whitelisted and approved by authorized individuals. This prevents the withdrawal of digital assets held on the exchanges to any address that has not been internally verified.

Exchange balances are aggregated via live API feeds to ensure risk exposures are monitored across the Partnership's positions. Exchange accounts with material balances are integrated within the Fireblocks platform; the integration allows for authorized users to initiate exchange withdrawals directly from Fireblocks to dedicated vault accounts within the platform. The Partnership maintains contingency plans to securely transfer digital assets of exchanges to pre-defined wallets and vault accounts. On an ongoing basis, the Partnership assesses its risk exposure based on current market conditions and its digital asset positions. To date, no known security breaches have occurred with any of the Partnership's exchange accounts which have resulted in a loss or theft of digital assets. The Partnership performs reconciliation procedures to review exchange balances, trades, and fees against internal and third-party records to ensure digital asset holdings are complete and accurate.

---

## ***Risk***

The Partnership's activities may expose it to variety of financial and other risks: credit risk, interest rate risk, liquidity risk, foreign currency risk, market risk, digital asset risk, loss of access risk, irrevocability of transactions, hard fork and airdrop risks and regulatory oversight risk, among others. The Partnership seeks to minimize potential adverse effects of these risks on performance by employing experienced personnel, daily monitoring of the Partnership's investments and digital assets, and any market events and diversifying the Partnership's business strategy as well as its investment portfolio within the constraints of the Partnership's investment objectives.

### ***Credit Risk***

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into, causing the other party to incur a financial loss. The Partnership's cash, receivables, receivable for digital asset trades, and loans (including digital asset loans) receivable are exposed to credit risk. The Partnership limits its credit risk by placing its cash with high credit quality financial institutions and with cryptocurrency exchanges on which the Partnership has performed internal due diligence procedures. The Partnership deems these procedures necessary as some exchanges are unregulated and not subject to regulatory oversight. Furthermore, crypto-exchanges engage in the practice of commingling their clients' assets in exchange wallets. When crypto-assets are commingled, transactions are not recorded on the applicable blockchain ledger but are only recorded by the exchange. Therefore, there is risk around the occurrence of transactions or the existence of period end balances represented by exchanges. As at June 30, 2021, the Partnership held approximately \$59.0 million (December 31, 2020 - \$12.4 million) in cash and \$869.5 million (December 31, 2020 - \$265.7 million) in digital assets at exchanges or custodians that do not have system or organization control reporting available. The Partnership's due diligence procedures around exchanges include, but are not limited to, internal control procedures around on-boarding new exchanges which includes review of the exchanges anti-money laundering ("AML") and know-your-client ("KYC") policies by the Partnership's chief compliance officer, obtaining a security ratings report by an independent third-party on certain exchanges, constant review of market information specifically regarding the exchanges security and solvency risk, setting balance limits for each exchange account based on risk exposure thresholds and preparing daily asset management reports to ensure limits are being followed and having a fail-over plan to move cash and digital assets held on an exchange in instances where risk exposure significantly changes. The Partnership limits its credit risk with respect to its receivables, receivables for digital asset trades, digital assets loans receivable and digital assets receivables by transacting with credit worthy counterparties that are believed to have sufficient capital to meet their obligations as they come due and, with regards to OTC and Master Loan Agreement (MLA) counterparties for the trading business, on which the Partnership has satisfactorily performed the relevant AML and KYC procedures. As of June 30, 2021 and subsequently, the Partnership does not expect a material loss on any of its loans. As of each reporting period, the Partnership assesses if there may be expected credit losses requiring recognition of a loss allowance. As of June 30, 2021, the Partnership is exposed to credit risk. While the Partnership intends to only transact with counterparties or exchanges that it believes to be creditworthy, there can be no assurance that a counterparty will not default and that the Partnership will not sustain a material loss on a transaction as a result.

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

## Derivative-related credit risk

Credit risk from derivative transactions is generated by the potential for the counterparty to default on its contractual obligations when one or more transactions have a positive market value to the Partnership. Therefore, derivative-related credit risk is represented by the positive fair value of the instrument and is normally a small fraction of the contract's notional amount.

The Partnership manages credit risk by transacting with counterparties that have gone through an internal due diligence approval process and requiring the posting of collateral if deemed necessary. The Partnership has also established mark-to-market provisions in its agreements with some counterparties which provide it with the right to request that the counterparties pay down or collateralize the current market value of its derivatives when the value exceeds a specified amount.

## ***Interest Rate Risk***

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. General interest rate fluctuations may have an impact on the Partnership's investment opportunities, primarily within its principal investments segment. An increase in interest rates may make it more expensive to utilize a leverage facility in the future to make investments. To the extent the Partnership invests in debt instruments, interest rate changes may affect the value of the instrument indirectly in the case of fixed rate obligations, or directly in the case of adjustable rate instruments. In general, rising rates will negatively impact the price of a fixed rate debt instrument and falling interest rates will have a positive effect on price. Interest rate sensitivity generally is more pronounced and less predictable in instruments with uncertain payment or prepayment schedules. Adjustable rate instruments also react to interest rate changes in a similar manner although generally to a lesser degree (depending, however, on the characteristics of the reset terms, including the index chosen, frequency of reset and reset caps or floors, among other factors). Interest rate changes would also affect its ability to earn interest income on cash balances at variable rates. The Partnership did not have a leverage facility in place, and its digital assets loans receivable and payable (Note 11) are at fixed rates of interest. The Partnership's remaining loans all have fixed rates however in some cases can also be settled in digital assets at the option of the borrower. As of June 30, 2021, the Partnership's exposure to interest rate risk is limited.

## ***Liquidity Risk***

Liquidity risk is the risk that the Partnership will not be able to meet its financial obligations as they come due, as well as the risk of not being able to liquidate assets at reasonable prices. The Partnership manages liquidity risk by maintaining sufficient cash balances to enable settlement of its liabilities. Accounts payable and accrued liabilities, other than accrued compensation, and payables for digital asset trades generally have maturities of 30 days or less or are due on demand, or in the case of digital assets loan payable, on 5 to 20 business days notice or at the end of the set term unless renewed. The Partnership intends to manage its short-term liquidity needs through its available cash balance and cash inflows from its ongoing business activities.

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

In addition, as of June 30, 2021, 70.5% (December 31, 2020 - 74.3%) of the Partnership's net portfolio was in liquid, actively traded cryptocurrency which can be monetized at reasonable prices in short order.

## ***Foreign Currency Risk***

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. To the extent these financial instruments are unhedged or not adequately hedged, the value of the Partnership's financial instruments may fluctuate with exchange rates as well as with price changes in various local markets and currencies. The value of the financial assets may therefore be unfavorably affected by fluctuations in currency rates and exchange control regulations. For the period ended June 30, 2021, the Partnership minimized exposure to digital assets transactions completed in foreign currencies by entering into foreign currency swaps, which are not significant.

## ***Market Risk***

Market risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All investments present a risk of loss of capital. The maximum risk resulting from financial instruments is equivalent to their fair value. The Partnership's investments are susceptible to other market risk arising from uncertainties about future prices of the instruments. The Partnership moderates this risk through the various investment strategies within the parameters of the Partnership's investment guidelines.

As of June 30, 2021, management's estimate of the effect on equity to a +/- 10% change in the market prices of the Partnership's investments and investments sold short, with all other variables held constant, is +/- \$60.2 million (December 31, 2020 - \$25.6 million).

## ***Digital Asset Risk***

Digital assets are measured at fair value less cost to sell. Digital currency or cryptocurrency prices are affected by various forces including global supply and demand, interest rates, exchanges rates, inflation or deflation and the political and economic conditions. Further, cryptocurrencies have no underlying backing or contracts to enforce recovery of invested amounts.

The profitability of the Partnership is related to the current and future market price of cryptocurrencies; in addition, the Partnership may not be able to liquidate its inventory of cryptocurrencies at its desired price if necessary. Investing in cryptocurrencies is speculative, prices are volatile, and market movements are difficult to predict. Supply and demand for such currencies change rapidly and are affected by a variety of factors, including regulation and general economic trends. Cryptocurrencies have a limited history, their fair values have historically been volatile and the value of cryptocurrencies held by the Partnership could decline rapidly. A decline in the market prices of cryptocurrencies could negatively impact the Partnership's future operations. Historical performance of cryptocurrencies is not indicative of their future performance.

Many cryptocurrency networks are online end-user-to-end-user networks that host a public transaction ledger (blockchain) and the source code that comprises the basis for the cryptographic and algorithmic protocols governing such networks. In many cryptocurrency transactions, the recipient or the buyer must provide its public key, which serves as an address for a digital wallet, to the seller. In the data packets distributed from cryptocurrency software programs to confirm transaction activity, each party to the transaction user must sign transactions with a data code derived from entering the private key into a hashing algorithm, which signature serves as validation that the transaction has been authorized by the owner of the cryptocurrency. This process is vulnerable to hacking and malware, and could lead to theft of the Partnership's digital wallets and the loss of the Partnership's cryptocurrency.

Cryptocurrencies are loosely regulated and there is no central marketplace for exchange. Supply is determined by a computer code, not a central bank. Additionally, exchanges may suffer from operational issues, such as delayed execution, that could have an adverse effect on the Partnership.

The cryptocurrency exchanges on which the Partnership may trade on are relatively new and, in many cases, largely unregulated, and therefore may be more exposed to fraud and failure than regulated exchanges for other assets.

Any financial, security, or operational difficulties experienced by such exchanges may result in an inability of the Partnership to recover money or digital assets being held on the exchange. Further, the Partnership may be unable to recover digital assets awaiting transmission into or out of the Partnership, all of which could adversely affect an investment of the Partnership. Additionally, to the extent that the digital asset exchanges representing a substantial portion of the volume in digital asset trading are involved in fraud or experience security failures or other operational issues, such digital asset exchanges' failures

# Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

---

may result in loss or less favorable prices of digital assets, or may adversely affect the Partnership, its operations and its investments.

As of June 30, 2021, management's estimate of the effect on equity to a +/- 10% change in the market prices of the Partnership's net digital assets, including digital assets posted as collateral, with all other variables held constant, is +/- \$162.1 million (December 31, 2020 - \$86.1 million).

### ***Loss of access risk***

The loss of access to the private keys associated with the Partnership's cryptocurrency holdings may be irreversible and could adversely affect an investment. Cryptocurrencies are controllable only by an individual that possesses both the unique public key and private key or keys relating to the "digital wallet" in which the cryptocurrency is held. To the extent a private key is lost, destroyed or otherwise compromised and no backup is accessible the Partnership may be unable to access the cryptocurrency.

### ***Irrevocability of transactions***

Cryptocurrency transactions are irrevocable and stolen or incorrectly transferred cryptocurrencies may be irretrievable. Once a transaction has been verified and recorded in a block that is added to the blockchain, an incorrect transfer or theft generally will not be reversible, and the Partnership may not be capable of seeking compensation.

### ***Hard fork and air drop risks***

Hard forks may occur for a variety of reasons including, but not limited to, disputes over proposed changes to the protocol, significant security breach, or an unanticipated software flaw in the multiple versions of otherwise compatible software. In the event of a hard fork in a cryptocurrency held by the Partnership, it is expected that the Partnership would hold an equivalent amount of the old and new cryptocurrency following the hard fork.

Air drops occur when the promoters of a new cryptocurrency send amounts of the new cryptocurrency to holders of another cryptocurrency that they will be able to claim a certain amount of the new cryptocurrency for free.

The Partnership may not be able to realize the economic benefit of a hard fork or air drop, either immediately or ever, for various reasons. For instance, the Partnership may not have any systems in place to monitor or participate in hard forks or airdrops. Therefore, the Partnership may not receive any new cryptocurrencies created as a result of a hard fork or airdrop, thus losing any potential value from such cryptocurrencies.

### ***Regulatory oversight risk***

Regulatory changes or actions may restrict the use of cryptocurrencies or the operation of cryptocurrency networks or exchanges in a manner that adversely affects investments held by the Partnership.

## **27. CAPITAL MANAGEMENT**

The Partnership's objectives when managing capital are to safeguard its ability to continue as a going concern, to meet the capital needs of its ongoing operations, and to maintain a flexible capital structure which optimizes the cost of capital. The Partnership considers current economic conditions as well as the risk profile of its portfolio and overall business when managing its capital structure. The Partnership has an ongoing process whereby actual expenditures and cash needs are compared against budgets to ensure that there is sufficient capital on hand to meet ongoing obligations. As of June 30, 2021 and December 31, 2020, the Partnership had \$1.50 billion and \$798.2 million in equity, excluding non-controlling interests, respectively. The Partnership has the flexibility to acquire or dispose of assets, and to issue debt or equity to adjust its capital structure in the future. The Partnership is not subject to externally imposed capital requirements other than the minimum net capital requirement for its broker dealer of \$0.1 million, nor were there any changes to the Partnership's approach to capital management during the period ended June 30, 2021.

## **28. COMMITMENTS AND CONTINGENCIES**

### **Sublease**

As of June 30, 2021 and December 31, 2020, the Partnership had commitments under two operating subleases (Note 24). The first sublease has a 10.5 year term that commenced on February 1, 2018 and expiring on June 30, 2028. The sublease contains a standard rent escalation clause, and rent was waived until June 30, 2018. The rent began at \$0.8 million per annum and is to be paid monthly in advance in equal installments.

## Galaxy Digital Holdings LP

Notes to the Condensed Consolidated Interim Financial Statements  
For the Three and Six Months Ended June 30, 2021 and 2020  
(Expressed in US Dollars - unaudited)

In addition, the Partnership entered into another sublease agreement, effective August 1, 2019. The sublease started on August 1, 2019 and ends on June 30, 2028. The sublease contains a standard rent escalation clause and rent began at \$11.5 thousand per month and is to be paid monthly in advance.

As of June 30, 2021, the Partnership has operating lease commitments for the next five years as follows (in thousands):

	<b>Rent Due</b>
2021	499
2022	1,013
2023	1,043
2024	1,074
2025	1,107
<b>Total</b>	<b>\$ 4,736</b>

Additionally, the Partnership has \$2.9 million in total commitments under the subleases for the period from 2026 to the expiration of the sublease terms on June 30, 2028.

### Investment and loan commitments

As of June 30, 2021, the Partnership was obligated to one investment fund to fund up to \$28.5 million, of which (\$13.8) million was due to the Partnership as a result of a return of capital from Galaxy Interactive Fund, which was provided in July.

### Agreement for mining equipment

The Partnership has entered into agreements for the supply of blockchain servers. The commitment amount and the amount paid as of June 30, 2021 are disclosed below:

	<b>Commitment Amount</b> <b>(\$ millions)</b>	<b>Amount Paid as of</b> <b>Period End</b> <b>(\$ millions)</b>	<b>Net</b> <b>(\$ millions)</b>
Mining equipment	79.3	30.4	\$48.9

### Indemnification

The Partnership has provided standard representations for agreements and customary indemnification for claims and legal proceedings. Insurance has been purchased to mitigate certain of these risks. Generally, there are no stated or notional amounts included in these indemnifications and the contingencies triggering the obligation for indemnification are not expected to occur. Furthermore, often counterparties to these transactions provide comparable indemnifications. The Partnership is unable to develop an estimate of the maximum payout under these indemnifications for several reasons. In addition to the lack of a stated or notional amount in a majority of such indemnifications, it is not possible to predict the nature of events that would trigger indemnification or the level of indemnification for a certain event. The Partnership believes, however, that the possibility of making any material payments for these indemnifications is remote. As of June 30, 2021 and December 31, 2020, there was no liability accrued under these arrangements.

In the ordinary course of business, the Partnership and its subsidiaries may be threatened with, named as defendants in, or made parties to pending and potential legal actions. The Partnership does not believe that the ultimate outcome of these and any outstanding matters will have a material effect upon our financial position, results of operations or cash flows.

### Financial Support of GDH Ltd.

In accordance with the LPA, the Partnership will reimburse or pay for all reimbursable expenses of GDH Ltd. (Note 5).

## 29. SUBSEQUENT EVENTS

On May 5, 2021, GDH Ltd. announced that it agreed to acquire BitGo, an independent digital assets infrastructure provider. Under the terms of the merger agreement, the consideration to BitGo shareholders will consist of 33.8 million of newly issued shares of GDH Ltd. common stock and \$265 million in cash, subject to certain adjustments and deferred purchase considerations. GDH Ltd. will use its balance sheet to fund the cash consideration, a significant portion of which will be deferred up to 12 months post-close. Additionally, GDH Ltd. will issue incremental shares of its common stock to BitGo's shareholders in exchange for BitGo's net digital assets at close.

The transaction has been approved by the boards of directors of both GDH Ltd. and BitGo. The acquisition is expected to close in the fourth quarter of 2021, subject to approval by GDH Ltd.'s shareholders of the domestication of GDH Ltd. as a Delaware corporation and specified internal restructuring, as well as certain related matters and other acquisition-related closing conditions and regulatory approvals.

On July 27, 2021, GDH LP entered into a sublease agreement, effective July 27, 2021, to occupy the 13th floor of the building at 300 Vesey Street, New York, New York. The sublease is set to expire on February 27, 2029.
